

LOW LEVEL ROAD TRAFFIC UPDATE

UPDATE 1

Upcoming Weekend Full Road Closure – Low Level Road from Kennard Avenue to St. Andrews Avenue in North Vancouver

A planned weekend closure (weather dependent) will take place August 22 – 25 and will be in effect from Friday at 9 p.m. to Monday at 5 a.m. The closure will allow crews to relocate the temporary detour near St. Andrews Avenue and continue work on the retaining wall.

Detour routes will be clearly marked and motorists are advised to exercise caution in the area and to follow the directions of traffic personnel and road signs. Emergency and Port access will be maintained at all times.

UPDATE 2

New Westbound Lane Opening on New Low Level Road

The westbound lane of the new Low Level Road is scheduled to open in August 2014, marking a major milestone towards Project completion.

Beginning mid-to-late August (weather dependent), motorists travelling westbound will use the new Low Level Road. Eastbound traffic will continue to use the existing Low Level Road.

A key goal of the Low Level Road Project is to maximize predictability during construction and minimize disruption for residents, goods movers and the travelling public.

For more information about the Low Level Road Project, including all current and upcoming construction activities, visit www.porttalk.ca/lowlevelroad.
