

2013 - 2022

# Final Project Plan

April 8, 2013

2013 Project Budget	
Overall Funding Schedule	1
Funding Allocation – Detail by Source	2-7
List by Location	8-11
Land & Major Investments	12
Buildings	13
Transportation & Streets	14-15
Parks & Environment	16
Public Art	17
Equipment	18-19
Vehicles	20
Block Funding, On-Going Programs & One-Time Studies	21
2013-2022 Project Plan	
Basic Assumptions Underlying the Plan	22
Structure of the Plan	23
Colour Coding	24
Summary	25
Projects Funded Matched to Funding Sources	26-28
Land and Major Investments	29
Buildings	30-33
Structures Summary	34
Transportation and Streets	35-37
Parks and Environment	38-39
Public Art	40
Equipment Summary	41
General Equipment	42
Information Technology	43-44
Engineering Equipment	45
Fire Equipment	46
Block Funding, On-Going Programs, and One-Time Studies	47-48
Utilities	49-51
Reserves and Other Funding	52-59

#### Basic assumptions underlying the Plan include:

- 1. When provided, costs are based upon the best currently available information, and this means that some of the costs are more accurate than others. Factors affecting accuracy include the level of detailed planning which has been completed for the individual projects and plans, and the timing of the projects. In general, 2013 costs are more accurate than costs for future years.
- 2. There is an important exception. An estimated cost for Harry Jerome Redevelopment and Renewal will not be known until the scope of the project has been determined. The amount included in the Plan is a "placeholder" indicating the amount of funding the City may be able to provide toward the projects, assuming priorities are not changed.

#### **Forecast Assumptions**

- 3. The Plan reflects the current forecast for the budget year, and provides an allocation basis for subsequent year-to-year funding. Only the current year budgets will be used to appropriate funds; the subsequent years' budgets will be revised in the following years' Plans.
- 4. The Plan reflects the City's longstanding practice of using internal reserves as the basis for financing. The Plan is therefore sensitive to interest rate and reserve contribution fluctuations (including contributions from land sales), and also reflects the necessity to postpone projects until reserve funds are sufficient to support them.
- 5. The City currently has no debt, and there is no borrowing forecast in the Plan.

#### **Contribution Assumptions**

- 6. Contributions include amounts anticipated through fundraising and other private contributions, including those provided by developers, as well as contributions from senior levels of government, where these may be available.
- 7. Anticipated contributions from outside sources are shown as a source of funds for projects in the Plan, where it is reasonable to anticipate receipt of the funds. However, it should be noted that, for projects funded by contributions, the project scope as envisioned cannot be guaranteed if the contributions are not forthcoming.

#### Structure of the Plan

The materials included provide summary information, followed by complete detailed listings of all projects included in the Plan.

Projects are grouped into ten categories as follows:

- 1. Land and Major Investments;
- 2. Buildings;
- 3. Structures Streets and Transportation:
- 4. Structures Parks and Environment;
- 5. Structures Public Art;
- 6. Equipment General;
- 7. Equipment Information Technology;
- 8. Equipment Engineering;
- 9. Equipment Fire; and
- 10. Block Funding, On-Going Programs and One-Time Studies.

It should also be noted that, the 10 sections are further summarized into four additional categories. The Plan information is summarized into those four categories on page 25 of the Plan:

- 1. Land/Major Investments Section 1
- 2. Buildings Section 2
- 3. Structures Sections 3 to 5
- 4. Equipment Sections 6 to 10

#### **Colour Coding**

Projects have been grouped into six project types, which are identified in the top right-hand corner of each project sheet:

Base Program (Green):

- 1. Maintenance & Replacement;
- 2. Ongoing Program;
- 3. Provision;

Projects to be prioritized by Council (Blue or Red):

- 4. Major Renovation;
- 5. New Capital Asset; and
- 6. One-Time Studies

It is the City's long-standing policy to place the maintenance of existing infrastructure as a first priority, and to only take on new facilities and programs when both an operating and capital source of funds sufficient to ensure successful completion and maintenance of facilities and ongoing program delivery can be identified. Based on this premise, and given the fact that there is generally little discretion about funding basic maintenance projects, the projects identified as "Maintenance & Replacement" are considered as being part of the Base Program. Also included in the Base Program are ongoing programs such as the annual allocation of \$85,000 to public art. Provisions included in the plan to provide Council with some flexibility to fund projects from various designated sources of funding are also included in the Base Program. Such provisions can only be appropriated after a project has been identified and approved by Council. These projects are colour coded in Green at the top right-hand corner of the project sheets, as well as in the left-hand column of the detailed project listings following each tab. Because the priorities for maintenance are based primarily on condition and requirements of the infrastructure, these projects have been so coded by the respective Project Manager and funding for those projects has been identified.

On the other hand, projects in the Major Renovation, New Capital Assets, and One-Time Studies categories would provide new facilities and/or new levels of service to the community. New this year, these projects have been colour coded in Blue or in Red in the left-hand column of the detailed project listings as well as in the top right-hand corner of the project sheets. Blue projects are those that have a dedicated source of funding in conformity with the terms of reference of the reserve bylaws. Red projects are projects that do not have a dedicated source of funding and for which a source of funding remains to be identified.

A summary of the total value, including external funding, of base program projects vs. non-base program projects is as follows:

#### 10 Year Summary (Excluding Utilities)

# 10 Year - Project Plan 2013 - 2022

# WATER UTILITY

To be noted:

\* The 10 Year Plan reflects the current forcast for project budget year and provides a basis for year to year funding.

\* Projects of similar value may be transferred between years and the scope and priority of projects may change.

\* Oerational issues, development needs and technological changes may effect the 10 Year Plan from year to year.

# 10 Year - Project Plan 2013 - 2022

# SEWERAGE UTILITY

- To be noted:

  \* The 10 Year Plan reflects the current forcast for project budget year and provides a basis for year to year funding.

  \* Projects of similar value may be transferred between years and the scope and priority of projects may change.

  \* Operational issues, development needs and technological changes may effect the 10 Year Plan from year to year.

# **ANNUAL BUDGET - Direct Transfer to Capital**

Each year an amount is transferred from the annual budget to fund various capital projects. These funds are unrestricted and can be used for any capital project. Approximately 11% of the City's annual tax levy is transferred to capital projects or to fund capital reserves.

#### **TAX SALE LAND Principal**

The Tax Sale Lands Fund is made up of the proceeds of sale of all lands sold by the City which originally became City property though non-payment of taxes. Most of this land came to the City in the 1930's, during the Great Depression. The balance in the Tax Sale Land reserve is used to invest in projects that have a prospective rate of return equal to or greater than the City's benchmark rate of return; to invest in infrastructure and land management, in order to enhance the marketability and increase the value of marketed lands, or to invest in the purchase of land assets to be held by the City. By long-standing Council policy, Tax Sale Land principal is not used to fund depreciable assets such as civic buildings, infrastructure or equipment.

#### TAX SALE LANDS interest

The previous year's earned interest of the Tax Sales Land reserve is unrestricted and is used to fund various projects. Along with the Annual Budget tax levy, this is the major unrestricted source that the City has for funding capital projects.

#### CIVIC AMENITY

The City also owns land that was acquired through purchase, i.e., not through tax defaults. Such property is considered as being a non-Tax Sale land property. The proceeds of sale are placed in the City Amenity fund. The CAF is specifically dedicated to fund capital projects which will enhance the use and enjoyment of the City by members of the public, such as parks, recreation centers, libraries, plazas, and other community amenities.

# LOWER LONSDALE AMENITY

The LLAF was originally created to set aside funds from non-Tax Sale land or density transfer in Lower Lonsdale. Funding from this source was to be used with respect to capital projects in the Lower Lonsdale area relating to the provision of affordable and adaptable rental housing, a community arts gallery, a photographic and media arts gallery, a museum, a 150-200 seat theatre, a multi-purpose activity centre, and other Lower Lonsdale amenities. In 2011, Council adopted a bylaw that requires all land sales to be consolidated into one reserve, the Civic Amenity Reserve Fund. While no new funding will be set aside in the LLAF, funds that are in place will be used toward the construction of Lower Lonsdale amenities as it was originally intended.

# MARINE DRIVE AMENITY

This reserve originally aimed to set aside proceeds from land sales of non-Tax Sale properties in the Marine Drive area for the purpose of funding projects in the area. In 2011, Council adopted a bylaw that requires all land sales to be consolidated into one reserve, the Civic Amenity Reserve Fund. While no new funding will be set aside in this reserve, funds that are in place will be used toward projects in the Marine Drive area.

#### GENERAL BUILDING

The General Building Reserve is used for capital building maintenance, renovation, and building replacement. The City owns in excess of \$100m in buildings. The GB reserve was established in 1995 to begin the process of setting aside sufficient funds to replace these buildings as required. Because the Justice Administration (Gerry Brewer) Building is co-owned with the District of North Vancouver, it has its own replacement reserve. This building is not very old; nevertheless, it is necessary to begin setting replacement funds aside.

# INFRASTRUCTURE

The Infrastructure Reserve funds engineering infrastructure replacement projects such as those included in the category "Structures". A long term goal for the fund would be to more closely match the amount transferred each year to this reserve from the annual budget with the City's infrastructure maintenance requirements. This would be achievable only over many years, because the value of the required infrastructure reinvestment is high.

#### **PARKING**

This reserve has been funded by pay-in-lieu contributions from developers who cannot provide off-street parking due to heritage restrictions, or land conditions which would create significant financial hardship; as well as from parking revenues from 1998-2002. Moneys in the fund and any interest thereon shall be expended only for purchase, acquisition, construction, installation or improvement of new and existing off-street parking spaces.

# PARKS DCC

The Parks DCC fund can only be used to fund the purchase of parkland and certain specific parks improvements. DCC's in general are to be used to create capital works required due to growth, therefore the City plans to use these funds to provide parks and improvements in areas impacted by growth.

#### STREETS DCC

The Streets DCC Fund is used for a single street improvement attributable to growth, which was the construction of the Third Street connector. This project was financed using TSL principal funds, which are being repaid to the TSL through the Streets DCC.

#### LOWER LONSDALE LEGACY

The Lower Lonsdale Legacy Fund is funded from 25% of the proceeds of sale of non-Tax Sale land or density transfer in Lower Lonsdale to a maximum of \$2.5m. It is treated as an endowment fund and only the previous year's earned interest is made available to allocate to grants. The fund provides grants for community development projects, services, and events that contribute to the quality of life of residents in Lower Lonsdale. The projects may be capital or operational.
