The Chair showed a PowerPoint presentation and led a discussion of an analysis of historical Community Grant data.

Key points included:
• Requests are going up every year and will likely continue.
• The average amount per grant application has not changed much over a number of years.
• We seem to be receiving more applications from the same organizations.
• Community Grants could be underfunded by 2025 if no new money is made available.

Questions/Comments from SPAC:
• Discussion occurred on other ways to balance the current model for community grants such as lowering the maximum amount requested per organization or limiting the number of applications from one organization.
• It was noted that SPAC could advocate to Council for changes to the Community Grant levels via a motion and/or input into the Community Well Being Strategy.
