

Harry Jerome Community Recreation Centre Project

A VIBRANT SOCIAL HEART OF OUR COMMUNITY

PROJECT UPDATE December 2024

Executive Summary

The new Harry Jerome Community Recreation Centre Project and Silver Harbour Seniors' Activity Centre (HJCRC/SH) continue to be the largest investment in community recreation in the City. When completed, it will provide more than 18,580 sq.m. of inclusive and accessible community space to support the health and wellbeing of our community. Construction is currently focused on structural steel, mass timber elements, steel deck, masonry, mechanical and electrical work.

Highlight –Video Walkthrough with hcma Architecture + Design

The City of North Vancouver is thrilled to have hcma as the design architect for the Harry Jerome Community Recreation Centre. hcma is a globally recognized leader in the design of inclusive, sustainable community recreation centres. As part of hcma's design process, the entire building has been modeled in a virtual world. These virtual models are an excellent tool to showcase the design and generate videos and renderings of exterior views and interior spaces. We invite you to take an 8 minute virtual walkthrough of the new centre narrated by hcma.

Use this QR code to link to the video or visit the HJCRC project website www.cnv.org/HJCRC to view all HJCRC project videos.
