The City is creating a new neighbourhood park at 1600 Eastern Avenue. In conjunction with the 2018 rezoning of the properties at Eastern Ave. and East 17th Street, City Council endorsed the acquisition of .2 hectare parcel for a new park.

In September we asked residents to share their ideas and visions for this new park. What we heard has helped to shape preliminary park designs. We are now looking for your feedback on the options!

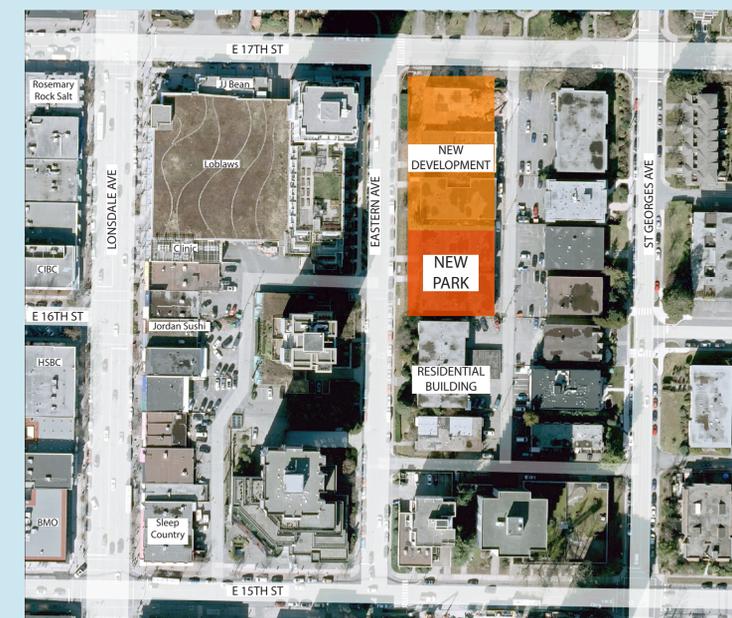

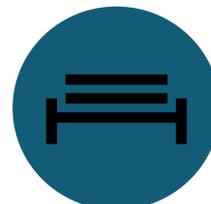

Please visit www.letstalk.cnv.org to find out more and complete our online survey.

We asked: "What design principle best reflects your vision for the new park?"

1. Create a place that is inviting and inclusive.
2. Provide an oasis of calm.
3. Create an outdoor living room.
4. Delight children with features that directly appeal to them.

We asked: "What is missing from existing parks + public open spaces in Central Lonsdale?"

1. Play Features
2. Green Space and Trees
3. Benches and Picnic Tables
4. Dog Parks and Facilities
