**RAISED BEDS ON CITY BOULEVARDS**

**GUIDELINES FOR URBAN AGRICULTURE**

- Beds to be constructed of wood timber (maximum dimension: 2 X 12 lumber.)
- Pressure-treated wood is not food safe; use untreated cedar or other wood types.
- Follow the recommended setbacks in this diagram. This layout allows for safe access to vehicles, the boulevard and the sidewalk.
- Please ensure vegetables grown in the raised beds do not exceed 1.0m (3'-1/4") in height or overgrow onto the sidewalk.
- Raised beds must not cover any underground utilities.

**NOTE:**
The City reserves the right to remove the planters with minimum 48 hrs. notice to conduct work in the right-of-way area. This notice period will be void in case of emergency utility work.
