RAISED BEDS ON CITY BOULEVARDS GUIDELINES FOR URBAN AGRICULTURE

• Beds to be constructed of wood timber (maximum dimension: 2 X 12 lumber.)

- Pressure-treated wood is not food safe; use untreated cedar or other wood types.
- Follow the recommended setbacks in this diagram. This layout allows for safe access to vehicles, the boulevard and the sidewalk.
- Please ensure vegetables grown in the raised beds do not exceed 1.0m (3'-1/4") in height or overgrow onto the sidewalk.
- Raised beds must not cover any underground utilities.
