# CNV Streets and Parks Furnishing Standards (2025)

Furnishing	Product Code	Supplier	Description	Product Image	Notes
Bollards	R-7902 Steel Bollard (embedded)	Reliance Foundry	36" high, 4 3/8" outside diameter, powder coated steel (black textured) 4" Stainless steel removable mount with hinged lid, cast in concrete footing CNV to add 3M White reflective tape at top NOTE: ensure "arms" are mounted parallel with direction of pedestrian/cyclist travel. Contact info@reliance-foundry.com		
Bollards	R-7904 Bike Bollard (removable)	Reliance Foundry	36" high, 4 3/8" outside diameter, powder coated steel (black textured) 4" Stainless steel removable mount with hinged lid, cast in concrete footing CNV to add 3M White reflective tape at top NOTE: ensure "arms" are mounted parallel with direction of pedestrian/cyclist travel (purpose of arms make it easier for crews to remove and reinstall - not necessarily to be used by bikes). Contact info@reliance-foundry.com		
Bollards	FG300 PE Surface Mount Post	Pexco	Confirm colour and base with CNV depending on install location (typically use round base). For mounting hardware, typically use a 3/8" x 3 1/2" Titen HD® Heavy-Duty Screw Anchor for installation in asphalt. For installation in concrete, use Simpson Strong-Bolt 2 Wedge Anchors. Sizing of wedge anchor depends on install location, but typically 3/8" x 3 3/4" anchor.		
Bollards	Shur-Flex Surface Mount 36" Post	Shur-tite	36" Post with 7X7 base (#EY7C36YP3). Confirm colour with CNV depending on install location. For mounting hardware, typically use a 3/8" x 3 1/2" Titen HD® Heavy-Duty Screw Anchor for installation in asphalt. For installation in concrete, use Simpson Strong-Bolt 2 Wedge Anchors. Sizing of wedge anchor depends on install location, but typically 3/8" x 3 3/4" anchor.		
Bollards	Collapsible Bollard	MaxiForce	Maxi-Force MCSW-SS1-S. Standard height 32" above finished surface. Collapsible and operated by a hydrant wrench. Contact sales@maxiforcebollards.com
