DIVISION I: ADMINISTRATION

Purpose

The “Zoning Bylaw, 1995, No. 6700” presents regulations for the use and development of lands, buildings and structures in the City of North Vancouver. For convenience, the Bylaw is divided into Divisions and Parts which should be read together to gain a complete understanding of the Zoning regulations within the City. Purpose statements are included with each Division, and are provided for general information only.

Purpose statements are not binding regulations. Defined terms have been capitalized to assist the user in knowing when to seek a written interpretation, as contained in Part 2. Such capitalization has been inserted for convenience only and users are advised to refer to Part 2 for interpretation regardless of whether or not capitalization has been used.

This portion of the “Zoning Bylaw, 1995, No. 6700” contains Division I "Administration", Division II "General Zoning Standards", Division III "Zoning District Standards" and Division IV "Parking and Loading Standards". Division V "Comprehensive Development Zones" and Division VI "Zoning Map" may be purchased or viewed at City Hall.

Zoning standards are periodically amended by Council, as provided for in the *Local Government Act*. Users requiring up-to-date Zoning information are therefore advised to contact City Hall to confirm the Zoning designations and corresponding regulations applicable to any individual site.

Members of the public interested in land use or development regulations in the City should also refer to other City bylaws and standards which may be applicable. These may include but are not limited to, the Official Community Plan, Development Permit Guidelines, the Subdivision and Development Control Bylaw, Building Bylaw, Sign Bylaw, Business License Bylaw and Development Procedures Bylaw, all as amended from time to time.

Members of the Public should also be aware of other land use regulations aside from the Zoning Bylaw which include but are not limited to, Development Variance Permits, Development Permits, Heritage Revitalization Agreements, Land Use Contracts as well as Covenants, Easements and Rights-of-Way. [Bylaw 7537 November 24, 2003]

Division I "Administration" which follows, contains Zoning definitions, basic Zoning provisions and matters related to the enforcement, amendment and status of this Bylaw. These are presented in Parts 1, 2, 3, 3A and 3B;

A Money Services Business must not be located on the ground floor of a building; *[Bylaw 9084, November 4, 2024]*

406 UNASSIGNED

407 UNASSIGNED

408 BUILDINGS AND STRUCTURES ON LOTS

- (1) A Building or Structure shall be constructed on not more than one Lot;
- (2) More than one Building may be constructed on one Lot except where otherwise provided for by this Bylaw;

409 HEIGHT EXCEPTIONS *[Bylaw 8464, May 30, 2016]*

The Heights of Buildings and Structures permitted elsewhere in the Bylaw may be exceeded for:

- (1) Industrial cranes, towers, bulkheads;
- (2) Accessory radio and television antennae other than satellite dishes;
- (3) Church spires, belfries and similar architectural appurtenances;
- (4) Monuments, chimney and smoke stacks, flag poles, stadium bleachers, lighting poles, elevator shafts, utility poles and posts;
- (5) Signs as permitted under Sign Bylaw 1992, No. 6363, as amended from time to time;
- (6) Roof thickness in excess of 0.3 metres (1 foot) provided that the excluded roof thickness is required to achieve compliance with the BC Energy Step Code, Passive House energy standard or other enhanced energy performance standard; *[Bylaw 8642, July 23, 2018]*
- (7) Solar Collectors to a maximum of:

- (a) 1.2 metres (4 feet) for Buildings for One-Unit Residential Use, Townhouse Residential Use and Ground-Oriented Residential Use provided that the installation:
 - (i) does not shade an existing Solar Collector or properties on January 21st, at noon, any more than would a structure built to the maximum permitted elsewhere in this Bylaw;
 - (ii) projects no greater than 1.2 metres (4 feet) above a flat roof; and
 - (iii) projects no greater than 0.3 metres (1 foot) above a pitched roof.
 - (b) 1.8 metres (6 feet) for Buildings for all other Principal Uses provided that the installation:
 - (i) is set back a minimum of 1.8 metres (6 feet) from the roof edge for all portions of the Solar Collector that project over 1.2 metres (4 feet) above the roof;
 - (ii) projects no greater than 3 metres (10 feet) above a flat roof; and
 - (iii) projects no greater than 0.3 metres (1 foot) above a pitched roof;
- (8) Green Roofs to a maximum of:
- (a) 0.5 metres (1.5 feet) for Buildings for One-Unit Residential Use, Townhouse Residential Use and Ground-Oriented Residential Use provided the installation is limited to a depth of 0.5 metres (1.5 feet);
 - (b) 0.5 metres (1.5 feet) for Buildings for all other Principal Uses provided the installation is an extensive green roof and covers no less than 50 percent of the roof area;
 - (c) 1.1 metres (3.5 feet) for Buildings for all other Principal Uses provided the installation is an intensive green roof and covers no less than 25 percent of the roof area;
- (9) Third Party Rooftop Antenna Systems and any associated screening structures. *[Bylaw 8882, December 6, 2021]*
- (10) Deleted *[Bylaw 8882, December 6, 2021]*

410 SITING EXCEPTIONS

- (1) Siting Exceptions for One-Unit and Two-Unit Residential Zones *[Bylaw 8642, July 23, 2018]*

For development in the RS-1, RS-2, RT-1 and RT-2 zones, the following siting exceptions shall apply: *[Bylaw 8521, December 12, 2016]*

- (a) Exterior Wall thickness in excess of 0.165 metres (6.5 inches) provided:
 - (i) a maximum exclusion of 0.25 metres (9.8 inches); and
 - (ii) the excluded wall thickness is utilized for the provision of insulating materials and/or for the protection against wind, water and vapour; *[Bylaw 8464, May 30, 2016]*

- (b) Where eaves, cornices, leaders, gutters, canopies or Sunlight Control Projections project beyond the face of the Principal Building, the minimum distance to an abutting Lot Line as permitted elsewhere in this Bylaw may be reduced by:
 - (i) 0.46 metres (1.5 feet) from an abutting Interior Side Lot Line; *[Bylaw 8642, July 23, 2018]*
 - (ii) 1.524 metres (5.0 feet) from an abutting Exterior Lot Line;
 - (iii) 2.13 metres (7 feet) from an abutting Front or Rear Lot line. *[Bylaw 7537, November 24, 2003]*

- (c) Where eaves, cornices, leaders, gutters, canopies or Sunlight Control Projections project beyond the face of the Accessory Coach House Building, the minimum distance to an abutting Lot Line or Principal Building as permitted elsewhere in this Bylaw may be reduced by:
 - (i) 0.61 metres (2.0 feet) from the Interior Side Lot Line;
 - (ii) 0.46 metres (1.5 feet) from the Exterior Lot Line; and
 - (iii) 0.61 metres (2.0 feet) from the Rear Lot line and Principal Building;

where Unenclosed Balconies, Unenclosed Porches or steps project beyond the face of the Accessory Coach House Building, the minimum distance to an abutting Lot Line as permitted elsewhere in this Bylaw may be reduced by:

- (i) 0.76 metres (2.5 feet) from the Rear Lot Line;
- (ii) 0.61 metres (2.0 feet) from the Exterior Lot Line; and
- (iii) 1.22 metres (4 feet) from a Principal Building; *[Bylaw 8883, March 7, 2022]*

- (d) Where chimneys project beyond the face of the Principal Building, the minimum distance to an abutting Lot Line as permitted elsewhere in this Bylaw may be reduced by:
 - (i) 0.46 metres (1.5 feet) from an abutting Interior Side Lot Line; *[Bylaw 8642, July 23, 2018];*
 - (ii) 0.762 metres (2.5 feet) from an abutting Front, Rear or Exterior Lot Line; *[Bylaw 8642, July 23, 2018];*

- (e) Where Bay Windows project beyond the face of the Principal Building, the minimum distance to an abutting Lot Line as permitted elsewhere in this Bylaw may be reduced by:
 - (i) *[Deleted by Bylaw 8642, July 23, 2018]*;
 - (ii) 0.915 metres (3.0 feet) from an abutting Front, Rear, or Exterior Lot Line;
- (f) Where Unenclosed balconies, Unenclosed Porches or steps project beyond the face of the Principal Building, the minimum distance to an abutting Lot Line as permitted elsewhere in this Bylaw may be reduced by:
 - (i) 0.46 metres (1.5 feet) from an abutting Interior Side Lot Line; *[Bylaw 8642, July 23, 2018]*
 - (ii) 1.524 metres (5.0 feet) from an abutting Exterior Lot Line; *[Bylaw 8418 June 15, 2015]*
 - (iii) 2.13 metres (7 feet) from an abutting Front or Rear Lot Line; *[Bylaw 7537 November 24, 2003]*
- (g) Where eaves **or gutters** *[Bylaw 7481, May 5, 2003]* project beyond the face of an Accessory Building, the minimum distance to an abutting Lot Line as permitted elsewhere in this Bylaw may be reduced by:
 - (i) 0.457 metres (1.5 feet) from an abutting Interior Side Lot Line;
 - (ii) 1.219 metres (4.0 feet) from an abutting Front, Rear, or Exterior Lot Line;
- (h) An Underground Structure may be sited in any portion of a Lot with the exception of any portion of the Lot within a Special Setback scheduled in Section 411 of this Bylaw; *[Bylaw 8464, May 30, 2016]*
- (i) Where a Green Wall or a Solar Collector projects beyond the face of the Principal Building or Accessory Building, the minimum distance to an abutting Lot Line as permitted elsewhere in this Bylaw may be reduced to that required by the British Columbia Building Code, as amended from time to time; *[Bylaw 8391, October 27, 2014]*
- (j) Where exterior ramps, lifts or similar mobility and/or accessibility-enhancing equipment project beyond the face of the Principal Building, the minimum distance to an abutting Lot Line as permitted elsewhere in this Bylaw may be reduced by: *[Bylaw 8642, July 23, 2018]*
 - (i) 0.46 metres (1.5 feet) from an abutting Interior Side Lot Line;
 - (ii) 1.52 metres (5.0 feet) from an abutting Exterior Lot Line;
 - (iii) 2.13 metres (7 feet) from an abutting Front or Rear Lot Line;
- (2) Siting Exceptions for Special Residential Zones *[Bylaw 8470, May 30, 2016]* *[Bylaw 8952, March 27, 2023]*

For developments in the RS-4B, RG-2, RG-2A, RG-3, RG-4 and RM-2 zones, the following siting exceptions shall apply:

- (a) where Exterior Wall thickness is in excess of 0.165 metres (6.5 inches) provided that the wall thickness is utilized for the provision of insulating materials and/or protection against wind, water and vapour, the minimum distance to an abutting Lot Line as permitted elsewhere in this Bylaw may be reduced by 0.25 metres (9.8 inches);
- (b) where eaves, cornices, leaders, gutters, canopies or Sunlight Control Projections project beyond the face of the Principal Building, the minimum distance to an abutting Lot Line as permitted elsewhere in this Bylaw may be reduced by 0.92 metres (3 feet) from any Lot Line;
- (c) where Bay Windows project beyond the face of the Principal Building, the minimum distance to an abutting Lot Line as permitted elsewhere in this Bylaw may be reduced by 0.61 metres (2 feet) from any Lot Line;
- (d) where Unenclosed balconies project beyond the face of the Principal Building, the minimum distance to an abutting Lot Line as permitted elsewhere in the Bylaw may be reduced by 0.3 metres (1 foot) from any Lot Line;
- (e) where Unenclosed Porches or steps project beyond the face of the Principal Building, the minimum distance to an abutting Lot Line as permitted elsewhere in this Bylaw may be reduced by:
 - (f) 0.76 metres (2.5 feet) from an abutting Interior Side Lot Line or Exterior Side Lot Line; and
 - (g) 1.22 metres (4 feet) from an abutting Front Lot Line or Rear Lot Line;
- (h) where eaves project beyond the face of an Accessory Building, the minimum distance to an abutting Lot Line as permitted elsewhere in this Bylaw may be reduced by:
 - (i) 0.76 metres (2.5 feet) from an abutting Interior Side Lot Line or Exterior Side Lot Line; and
 - (j) 1.22 metres (4 feet) from an abutting Front Lot Line or Rear Lot Line;
- (k) an Underground Structure may be sited in any portion of a Lot with the exception of any portion of the Lot within a Special Setback scheduled in Section 411 of this Bylaw; and

- (l) where a Green Wall or a Solar Collector projects beyond the face of the Principal Building or Accessory Building, the minimum distance to an abutting Lot Line as permitted elsewhere in this Bylaw may be reduced to that required by the British Columbia Building Code, as amended from time to time, but may not project into any portion of the Lot within a Special Setback scheduled in Section 411 of this Bylaw.

(3) Siting Exceptions for All Other Zones *[Bylaw 8464, May 30, 2016]*

For development in all other zones not subject to subsections 410(1) or 410(2), the following siting exceptions shall apply:

- (a) Exterior Wall thickness in excess of 0.165 metres (6.5 inches) provided:
- (i) a maximum exclusion of 0.25 metres (9.8 inches); and
 - (ii) the excluded wall thickness is utilized for the provision of insulating materials and/or for the protection against wind, water and vapour;

[Bylaw 8464, May 30, 2016]

- (b) Where eaves, cornices, leaders, gutters, canopies or Sunlight Control Projections project beyond the face of the Principal Building, the minimum distance to an abutting Lot Line as permitted elsewhere in this Bylaw may be reduced by:
- (i) 0.915 metres (3.0 feet) from an abutting Interior Side Lot Line;
 - (ii) 1.524 metres (5.0 feet) from an abutting Front, Rear, or Exterior Lot Line;
- (c) Where chimneys project beyond the face of the Principal Building, the minimum distance to an abutting Lot Line as permitted elsewhere in this Bylaw may be reduced by 0.762 metres (2.5 feet) from any Lot Line;
- (d) Where Bay Windows project beyond the face of the Principal Building, the minimum distance to an abutting Lot Line as permitted elsewhere in this Bylaw may be reduced by 0.915 metres (3.0 feet) from any Lot Line;
- (e) Where Unenclosed balconies, Unenclosed Porches or steps project beyond the face of the Principal Building, the minimum distance to an abutting Lot Line as permitted elsewhere in this Bylaw may be reduced by:
- (i) 0.762 metres (2.5 feet) from an abutting Interior Side Lot Line;
 - (ii) 1.524 metres (5.0 feet) from an abutting Front, Rear, or Exterior Lot Line;
- (f) Where eaves project beyond the face of an Accessory Building, the minimum distance to an abutting Lot Line as permitted elsewhere in this Bylaw may be reduced by:
- (i) 0.457 metres (1.5 feet) from an abutting Interior Side Lot Line;
 - (ii) 1.219 metres (4.0 feet) from an abutting Front, Rear, or Exterior Lot Line;

- (g) An Underground Structure may be sited in any portion of a Lot.
[Bylaw 7135 June 28, 1999]
- (h) Where a Green Walls or a Solar Collector projects beyond the face of the Principal Building or Accessory Building, the minimum distance to an abutting Lot Line as permitted elsewhere in this Bylaw may be reduced to that required by the British Columbia Building Code, as amended from time to time;
[Bylaw 8391, October 27, 2014]

411 SPECIAL SETBACK *[Bylaw 8464, May 30, 2016]*

- (1) where the road width is less than 30.48 metres (100 feet), the required Building setback from the Lot Line common to such road allowance for abutting Lots shall be measured from a line parallel to and 15.24 metres (50 feet) from the centreline of such road allowance as existing prior to 1967:
 - (a) Marine Drive;
 - (b) 3rd Street between Bewicke Avenue and Cotton Road;
 - (c) Lonsdale between TransCanada Highway and 27th Street;
- (2) where the road width is less than 20.12 metres (66 feet), the required Building setback from a Lot Line common to East 26th Street between Lonsdale and St. George's Avenue for abutting Lots shall be measured from a line parallel to and 20.12 metres (66 feet) from the northerly boundary of such road allowance as existing prior to 1967;
- (3) measurements for required Building setbacks in accordance with subsections 411(1) and 411(2) shall apply to all Underground Structures including Cellars and parking structures;

412 SIZE, SHAPE AND SITING OF ACCESSORY STRUCTURES IN ONE-UNIT AND TWO-UNIT RESIDENTIAL ZONES

Except as otherwise provided for in this Bylaw, Accessory Structures including Fences but excluding trees and plant material:

- (1) Height
 - shall not exceed a Height of 3.658 metres (12 feet);
- (2) Siting
 - (a) when not exceeding 1.22 metres (4 feet) in Height may be sited on any portion of the Lot;

- (b) when not exceeding 1.524 metres (5 feet) in Height may be sited on any portion of a Lot with a Child Care Use;
[Bylaw 8267, November 26, 2012]
- (c) when not exceeding 1.829 metres (6 feet) in Height may be sited to the rear of the front face of a Principal Building on the Lot;
- (d) when exceeding 1.829 metres (6 feet) in Height shall be sited in accordance with the required distances from Lot lines for Principal Buildings in the zone in which it is located;
- (e) in the case of any Structure over 0.914 metres (3.0 feet) in Height,
 - (i) shall not be sited within 4.57 metres (15 feet) of the intersection of the Lot lines along two Streets, or along a Street and a Lane, or along two Lanes;
 - (ii) shall provide vision clearance from driveways in accordance with Section 906(4)(h);
- (f) notwithstanding the regulations under Subsections 412(2)(b) and (c), a Trellis or a gazebo with no waterproof roof, up to 2.438 metres (8 feet) in Height, may be sited anywhere on the Lot.

413 SIZE, SHAPE AND SITING OF ACCESSORY STRUCTURES IN APARTMENT AND PUBLIC USE AND ASSEMBLY ZONES

Except as otherwise provided for in this Bylaw, Accessory Structures including Fences, but excluding trees and plant material:

- (1) Height
 - shall not exceed a Height of 3.658 metres (12 feet);
- (2) Siting
 - (a) when not exceeding 1.829 metres (6 feet) in Height may be sited anywhere on the Lot;
 - (b) when not exceeding 2.438 metres (8 feet) in Height may be sited to the rear of the front face of a Principal Building on the Lot;
 - (c) when exceeding 2.438 metres (8 feet) in Height shall be sited in accordance with the required distances from Lot lines for Principal Buildings in the zone in which it is located;
 - (d) in the case of any Structure over 0.914 metres (3.0 feet) in Height,
 - (i) shall not be sited within 4.57 metres (15 feet) of the intersection of the Lot lines along two Streets, or along a Street and a Lane, or along two Lanes;

- (ii) shall provide vision clearance from driveways in accordance with Section 906(4)(h);
- (e) notwithstanding the regulations under Subsections 413(2)(b) and (c), a Trellis or a gazebo with no waterproof roof, up to 2.438 metres (8 feet) in Height, may be sited anywhere on the Lot;
- (f) Notwithstanding the regulations under Sub-sections 413(2) (a), (b), (c) and (d), a Civic Use or Assembly Use in the P-1 or P-2 Zones may have a predominantly open fence with a height of up to 3.658 metres (12 feet) located anywhere on the site. *[Bylaw 6748 February 12, 1996]*

414 SIZE, SHAPE AND SITING OF ACCESSORY STRUCTURES IN COMMERCIAL AND INDUSTRIAL ZONES

Except as otherwise provided for in this Bylaw, Accessory Structures including Fences, but excluding trees and plant material:

(1) Height

shall not exceed the maximum Height of a Principal Building in the zone in which it is located.

(2) Siting

- (a) when not exceeding 2.438 metres (8 feet) in Height may be sited on any portion of the Lot;
- (b) when not exceeding 3.048 metres (10 feet) in Height may be sited to the rear of the front face of a Principal Building on the Lot;
- (c) when exceeding 3.048 metres (10 feet) in Height may be sited in accordance with the required distances from Lot lines for Principal Buildings in the zone in which it is located;
- (d) in the case of a Structure over 0.914 metres (3.0 feet) in Height:
 - (i) shall not be sited within 4.57 metres (15 feet) of the intersection of the Lot lines along two Streets, or along a Street and a Lane;
 - (ii) shall provide vision clearance in accordance with Section 906(4)(h).

415 SITING OF SWIMMING POOLS

Unenclosed swimming pools shall be sited not less than:

- (1) 3.048 metres (10 feet) from a front or Rear Lot Line;

(2) 1.524 metres (5 feet) from an interior or exterior Lot line.

416 LANDSCAPE SCREEN

Where a Landscape Screen as required under this Bylaw is not installed by the person required to do it, the City may, pursuant to *Local Government Act*, direct that the Landscape Screen be done at the expense of the person in default, and the City may thereafter recover that expense with interest at the rate of 6% per annum with costs in the same manner as municipal taxes.

417 GARBAGE AND RECYCLING FACILITIES

(1) Recycling and Garbage Storage Facility Requirements

All Buildings, except those with two or fewer Principal Dwelling Units, shall provide a recycling and garbage storage facility which is screened and accessible from a driveway or Lane with the following dimensions:

Figure 4-3 – Recycling and Garbage Storage Facility Requirements

Building Use	Space Requirement	Minimum Required Floor Area	Maximum Excluded Floor Area
Multiple Unit Residential (≥ 3 units)	0.486 m² per unit (5.23 ft² per unit)	11 m² (118.4 ft²)	0.486 m² per unit (5.23 ft² per unit) In addition to minimum area required
Tourist Accommodation	0.384 m² per room (4.13 ft² per room)	10 m² (107.6 ft²)	100 m² (1076.4 ft²) , at which collection frequency can be increased beyond once per seven days
Commercial – Retail	0.023 m² per m² (0.023 ft² per ft²)	8 m² (86.1 ft²)	90 m² (968.8 ft²) , at which collection frequency can be increased beyond once per seven days
Commercial – Office	0.010 m² per m² (0.010 ft² per ft²)	8 m² (86.1 ft²)	120 m² (1291.7 ft²) , at which collection frequency can be increased beyond once per seven days
Commercial – Restaurant	0.026 m² per m² (0.026 ft² per ft²)	5 m² (53.8 ft²)	75 m² (807.3 ft²) , at which collection frequency can be increased beyond once per seven days
Commercial – Large Venue	0.018 m² per m² (0.018 ft² per ft²)	6.5 m² (70 ft²)	100 m² (1076.4 ft²) , at which collection frequency can be increased beyond once per seven days
Mixed Use	Shall provide separate recycling and garbage storage spaces for both residential and commercial components, as per the space allocation required above and in compliance with the City’s Construction Regulation Bylaw No. 7390 as amended from time to time. When the future commercial use is not known, the recycling and garbage storage space shall be equal to the space needed for the potential commercial use with the highest storage needs.		
Industrial and Institutional	Shall provide adequate recycling and garbage storage space in the building design, to ensure the waste management needs of the building’s planned use are met.		
Existing Buildings	The recycling and garbage area specifications will not apply retroactively to existing buildings. Instead, the guidelines will act as a resource should strata councils seek information on best waste management practices.		
Alternative Solutions	If evidence is submitted to the City in connection with an application for acceptance for an alternative solution to satisfy one or more of the space requirements, the Director of Community Development, or their designate, may accept an alternate solution if they are of the opinion that the evidence submitted demonstrates that the alternative solution will address the general intent of the space requirements while addressing site-specific challenges.		

(2) Access Requirements

Design and siting of a recycling and garbage storage facility must:

- (a) be accessible from a driveway or Lane;
- (b) comply with the Adaptable Design provisions in Section 423.

418 AMENITY SHARE *[Bylaw 8464, May 30, 2016]*

An Amenity Share in accordance with the zone standard must be provided prior to building permit issuance in order to construct or extend a Building or Structure in said zone:

(1) Amenity Share

\$215.28 per square metre (\$20 per square foot) Gross Floor Area

(2) Exemption

No Amenity Share is required for Gross Floor Area up to the greater of the following:

- (a) permitted density prior to adoption of Amendment Bylaw, 2016, No. 8464; or
- (b) 0.5 times the Lot Area;

(3) Heritage conservation

(a) any person who applies for a building permit that includes a Building or Structure listed on the City of North Vancouver Heritage Registry, as amended from time to time, may be exempted from the Amenity Share to support the following to the satisfaction of the Director of Community Development:

- (i) conservation of a Building or Structure; and
- (ii) legal protection through a registered Land Title Act covenant;

(b) for the purposes of this provision, the maximum Amenity Share exemption shall be calculated based on the Lot that contains the Building or Structure on the Heritage Registry, as existing prior to the adoption of Amendment Bylaw, 2016, No. 8464;

(4) Time of payment

Provision of an Amenity Share is required prior to issuance of a building permit for the Gross Floor Area requiring the share.

419 ENERGY EFFICIENCY *[Bylaw 8464, May 30, 2016]*

As a community amenity to assist the City in achieving its OCP energy and emissions reduction targets, if and to the extent expressly contemplated in respect to each specific zone in this bylaw, any person who applies for a building permit must demonstrate compliance with the energy efficiency provisions in that zone as follows:

- (1) Deleted; *[Bylaw 8575, October 16, 2017]*
- (2) Deleted; *[Bylaw 8575, October 16, 2017]*
- (3) Deleted; *[Bylaw 8575, October 16, 2017]*
- (4) Passive House demonstration of compliance *[Bylaw 8575, October 16, 2017]*

Compliance with the Passive House energy standard created and standardized by the Passive House Institute shall be demonstrated through provision of the following:

- (a) Prior to issuance of a building permit:
 - (i) Energy model prepared by a Certified Passive House Designer or Certified Passive House Consultant approved by the Passive House Institute that:
 - a. specifies the modeled design meets or exceeds the Passive House Classic or EnerPHit requirements in the current version released by the Passive House Institute at the time of building permit application; and
 - b. should the model not meet the maximum total primary energy demand, that the deficiency is solely due to the domestic hot water demand or the space heating demand modeled in accordance with subsection 420(1) community energy system, and specifying the efficiency required to otherwise meet the maximum total primary energy demand;
 - (ii) Design stage assurance letter prepared by a Building Certifier accredited by the Passive House Institute, accompanied with the applicable Design Verification Letters as required by the Design Verification Report;
 - (iii) letter of credit for one percent of construction costs to be returned upon successful provision of the above and the fulfillment of the requirements in subsection 419(4)(b), all to the satisfaction of the Director of Community Services;
- (b) Within 6 months of substantial completion:
 - (i) Letter of Completion signed by the Coordinating Registered Professional or Registered Professional of Record (as defined in the British Columbia Building Code), stating that

420 HYDRONIC ENERGY SERVICE *[Bylaw 8464, May 30, 2016]*

As a community amenity to assist the City in achieving its OCP energy and emissions reduction targets, if and to the extent expressly contemplated in respect to each specific zone in this bylaw, any person who applies for a building permit must demonstrate compliance with the hydronic energy service provisions in that zone as follows:

- (1) prior to issuance of a building permit providing:
 - (a) registration of a statutory right-of-way and covenant in favour of the City to permit the installation and continued access across the Lands and Buildings of any community energy plant and/or system for the purposes of supplying hydronic energy; and
 - (b) confirmation that the design and construction of the Building is such that space heating, domestic hot water and other thermal energy uses can be supplied by a Community Energy System in accordance with the City of North Vancouver Hydronic Energy Service Bylaw 2004, No. 7575, all to the satisfaction of the Director of Community Development;

- (2) Buildings which achieve the Passive House energy standard in accordance with subsection 419(4), featuring a designed and installed space heating capacity not exceeding ten watts per square meter shall be required to

connect to a Community Energy System for the provision of hydronic energy in accordance with the City of North Vancouver Hydronic Energy Service Bylaw 2004, No. 7575, with the exception of heat for space heating purposes.

421 NOISE MITIGATION *[Bylaw 8464, May 30, 2016]*

As a community amenity to assist the City in addressing industrial, heavy traffic, and/or commercial noise impacts on the livability of multi-family buildings, if and to the extent expressly contemplated in respect to each specific zone in this bylaw, any person who applies for a building permit must demonstrate improved noise mitigation through provision of an acoustical report delivered to the City, prepared by a Professional Engineer specializing in acoustics that:

- (1) certifies that the interior space of all Dwelling Units constructed on the Lands has been designed to the minimum standards stipulated in the British Standard BS 8233:2014 “Guidance on sound insulation and noise reduction for buildings” (2014) or the World Health Organization’s “Guidelines for Community Noise” (1999), as amended from time to time;
- (2) confirms that all Dwelling Units to be constructed on the Lands that will be directly affected by industrial, heavy traffic, and/or neighbouring commercial uses have been designed assuming an external equivalent continuous sound level (Leq) of not less than 65 A-weighted decibels (dBA), all to the satisfaction of the Director of Community Development; and
- (3) recommends exterior and interior design and construction features and practices including, without limitation, the installation of a mechanical heat recovery ventilation system, to mitigate the impact of external and structure borne sound penetration between:
 - (a) neighbouring industrial, residential, commercial, community, entertainment, traffic, street pedestrian activities and other uses situated on or off the Lands; and
 - (b) the interior space of all residential dwelling units to be constructed on the Lands;

422 Deleted; *[Bylaw 8575, October 16, 2017]*

423 ADAPTABLE DESIGN *[Bylaw 8464, May 30, 2016]*

As a community amenity to assist the City in improving livability of multi-family buildings, if and to the extent expressly contemplated in respect to each specific zone in this Bylaw, any person who applies for a Building Permit for Apartment Residential Use, Rental Apartment Residential Use or Accessory Apartment Use must demonstrate compliance with the Adaptable design provisions in that zone as follows:

- (1) a minimum 25% of the total number of Dwelling Units, representing a proportional mix of each Dwelling Unit type in the Building, shall be designed to meet Level 2 of the Adaptable Design Guidelines; and
- (2) all other Dwelling Units shall be designed to meet Level 1 of the Adaptable Design Guidelines, to the satisfaction of the Director of Community Development.

DIVISION IV: PARKING AND LOADING STANDARDS

Purpose

Division IV contains regulations for parking spaces, loading spaces, vehicular maneuvering and other related matters. These regulations apply to properties in all zones and should therefore be read in conjunction with the regulations contained in other Divisions of this Bylaw.

PART 9: PARKING AND ACCESS REGULATIONS

901 REQUIRED PARKING SPACE

Subject to Sections 305 and 307, the minimum number of Parking Spaces for any Building or Use shall be provided in accordance with Section 908 of this Bylaw.

902 METHODS OF PARKING PROVISION

Subject to Sections 903, 904 and 905, required Parking may be provided On-site, Off-site or by means of Alternative Parking Provision. *[Bylaw 8464, May 30, 2016]*

903 ON-SITE PARKING

- (1) All required Parking Spaces shall have vehicular access from a Street or lane;
- (2) All required Parking Spaces shall be located on the same Lot as the Building or Use for which they are intended to serve, except as permitted under Sections 904 or 905, and except in the case of Parking permitted as a principal Use in this Bylaw.

904 OFF-SITE PARKING

- (1) Off-Site Parking Location

A required Parking Space may be located Off-Site on a Lot within 121.9 metres (400 feet) of the Building or Use for which Parking is required, provided that the Off-Site parking shall be secured by:

- (a) agreement subject to subsection 904(2); or
- (b) registered Land Title Act covenant subject to subsection 904(3).

[Bylaw 8464, May 30, 2016]

- (2) Off-Site Parking Secured by Agreement

- (a) Subject to Section 904(3)(b) in the C-2, CS-1, CS-2, CS-3 and M-4 zones, Off-Site Parking may be obtained by an agreement;

- (b) **Security Deposit:**

The owner of the Building requiring the Parking Spaces, the tenant, and the City shall be party to said agreement and each Parking Space supplied Off-Site shall be guaranteed by a security deposit, a form and terms satisfactory to the City in the amount of \$ 1,000 per Off-Site Parking space, such deposit to be re-evaluated or re-negotiated every five years, and to be forfeited should the owner, tenant, or their successor or assigns fail to provide the required number of Off-Site Parking Spaces;
- (c) **Terms of Parking Agreement**

The agreement shall state the location of the Use requiring the Off-Site parking, the location and number of Parking Spaces provided off-site, and terms of any lease or rental agreement between the owner of the Off-Site parking site, and the owner of the Building requiring the Off-Site Parking spaces. The City need not approve said agreement or permit Off-Site Parking if, in the opinion of the City, the Off-Site Parking would be detrimental to the health, safety, convenience or welfare of the adjoining owners, occupants or the public generally;
- (d) **Cancellation**

Off-site Parking agreement may be cancelled only by the mutual consent of both the City and the owner, his successors or assigns.
- (3) **Off-Site Parking Secured by Land Title Act Covenant**
 - (a) Subject to subsection 904(1) Off-Site Parking secured by a Section 215 Land Title Act covenant is permitted in all zones;
 - (b) Notwithstanding subsection 904(2)(a) where a Parking deficiency is created through the construction, reconstruction, structural alteration, or extension of a building, Off-Site Parking shall be obtained by a Section 215 Land Title Act covenant only;
 - (c) **Terms of the Covenant**

A Land Title Act covenant for Off-Site Parking shall state the location and number of Parking Spaces provided off-site, and terms of any lease or rental agreement between the owner of the Off-Site Parking Site and the owner of the Building requiring Off-Site Parking Spaces. The City need not approve said covenant or permit such Off-Site Parking if, in the opinion of the Council of the City, the Off-Site Parking would be detrimental to the health, safety, convenience or welfare of the adjoining owners, occupants or the public generally;
 - (d) The Section 215 covenant shall be filed in the Land Title Office.

(4) Default and Penalty

The City will, in accordance with the *Local Government Act*, suspend the business license of the owner, his/her successors or assigns, if the required Off-Site Parking is discontinued and an alternate Parking Site in conformance with this Bylaw is not supplied within ninety days.

905 ALTERNATIVE PARKING PROVISION [Bylaw 8464, May 30, 2016]

(1) Limited Application

Alternate parking provision shall not reduce the minimum required Parking Spaces for:

- (a) Parking Spaces for One-Unit Residential Use and Two-Unit Residential Use; or
- (b) Disability Parking Spaces in accordance in subsection 906(6) for any Use;

(2) Payment-in-Lieu of Parking

- (a) as a payment to fund the future creation of a Municipal Parking Facility, Payment-in-Lieu of Parking shall reduce the minimum provision of Parking spaces required in accordance with Section 908 by one Parking Space for every payment of \$35,000;
- (b) Parking Spaces provided in this section are not available on a reserved or dedicated basis within the Municipal Parking Facility;
- (c) Time of Payment
Payments referred to in subsection 905(1) are required at the time of:
 - (i) building permit issuance for the Gross Floor Area that requires the Parking Space specified in this Bylaw; or
 - (ii) business license issuance for the Use that requires the Parking Space specified in this Bylaw.

(3) Car Share Parking

- (a) Car sharing service
The service shall:
 - (i) provide neighbourhood car-sharing services to its members by making available vehicles for short-term, two-way, use, meaning that each Shared Vehicle is returned to the same location that it is picked up;
 - (ii) have a membership generally open to a substantial segment of the population;

- (iii) operate within the City of North Vancouver;
- (iv) provide, prior to issuance of a Development Permit, a letter of commitment to operate the Shared Vehicle at the Shared Vehicle Parking Space;

(b) Shared Vehicle

A letter of credit for \$50,000 shall be provided to the City to secure the provision of one Shared Vehicle, with the letter of credit:

- (i) reduced to \$25,000 after provision of the following:
 - a. a legal agreement with a car-sharing service to operate the Shared Vehicle at the Shared Vehicle Parking Space;
 - b. confirmation from the car-sharing service identified in subsection 905(3)(a) that funds sufficient to purchase the Shared Vehicle have been provided or that the car acquisition has been otherwise completed; and
 - c. a Shared Vehicle Parking Space has been secured in accordance with subsection 905(3)(c);
- (ii) returned in full with confirmation from the car-sharing service that it has operated a Shared Vehicle at the Shared Vehicle Parking Space for a minimum of six years after an occupancy permit has been issued for the Building;

(c) Shared Vehicle Parking Space

A Shared Vehicle Parking Space provided as part of the required Parking shall:

- (i) be clearly accessible to the public at all times:
 - a. in common ownership and not be assigned to any strata lot;
 - b. secured exclusively for the use of a Shared Vehicle through a covenant registered on title pursuant to Section 215 of the Land Title Act;
 - c. include all necessary reciprocal access easements and such other agreements to ensure access to, egress from and the right for the public use of the Shared Vehicle Parking Space;
- (ii) be individually labelled for the exclusive use of a Shared Vehicle;
- (iii) not be counted towards the minimum required visitor Parking Spaces;
- (iv) may be provided off-site in accordance with the Street and Traffic Bylaw, 1991, No. 6234, as amended from time to time; and
- (v) subject to the approval of the City Engineer at the time of building permit issuance;

- (d) Parking reduction
 The minimum vehicle Parking requirement in accordance with subsection 908(8), with no reduction in the minimum Visitor Parking requirement in accordance with Section 908(7), shall be reduced by four Parking Spaces, for provision of all of the following:
- (i) one Shared Vehicle subject to subsection 905(3)(b); and
 - (ii) one Shared Vehicle Space subject to subsection 905(3)(c);

906 GENERAL PARKING AND ACCESS REGULATIONS

- (1) Parking and access regulations in Section 906 apply generally to all zones unless otherwise specified in this Bylaw;
- (2) A Parking Space and maneuvering aisle shall comply with the dimensions and regulations shown in Figure 9-2;

(3) Parking Design Standards [Bylaw 8464, May 30, 2016]

(a) Parking Space dimensions

(i) Parking Space shall not be less than:

- a. 2.50 metre (8.2 foot) width;
- b. 5.49 metre (18 foot) length;
- c. Deleted; [Bylaw 8558, June 19, 2017]

(ii) notwithstanding 906(3)(a)(i), a maximum of 35% of the required Parking Spaces may be provided as small car parking spaces that meet the following standards:

- a. 2.44 metre (8 foot) width;
- b. 4.65 metres (15.25 foot) length;
- c. Deleted; [Bylaw 8558, June 19, 2017]
- d. each Parking Space is clearly marked "SMALL CAR ONLY";

(b) Laneway Parking Space

Notwithstanding 906(3)(a)(i), a laneway Parking Space shall be located so that the length of the Parking Space is common to an open Lane provided:

(i) when width is located in its entirety on a Lot, the laneway Parking Space shall be:

- a. set back a minimum of 4.6 metres (15 feet) from the point of intersection of two Lanes, or of a Street and a Lane, when such road allowances intersect at an interior angle of 135 degrees or less;
- b. set back a minimum of 1.0 metre (3.3 feet) from the point of intersection of a driveway and a Lane or from an Interior Side Lot Line; and
- c. subject to the approval of the City Engineer;

(ii) when Parking Space width is projecting into the Lane, the laneway Parking Space shall:

- a. project a maximum of 1.0 metre (3.3 feet) into the Lane;
 - b. reduce the minimum laneway Parking Space width in accordance with subsection 906(2), measured as the width on the Lot, by an amount no greater than the width of the projection into the Lane;
 - c. be set back a minimum of 5.6 metres (18.4 feet) from the point of intersection of two Lanes, or of a Street and a Lane, when such road allowances intersect at an interior angle of 135 degrees or less;
 - d. be set back a minimum of 1.8 metres (6 feet) from the point of intersection of a driveway and a Lane or from an Interior Side Lot Line; and
 - e. maintain a sufficient clear vehicle travel width on the Lane; and
 - f. subject to the approval of the City Engineer at the time of building permit issuance;
- (c) Parking Space setbacks and projections
- A Parking Space shall be:
- (i) set back a minimum of 0.3 metres (1 foot) from a Lot Line common to a Lot and a Street or a Lot and a Lane with the exception of a laneway Parking Space; and
 - (ii) on a Lot with lane access and an Accessory Coach House, parking spaces shall be sited no more than 3.05 metres (10 feet) from the Rear Lot Line, as measured from the point of the parking space closest to the Rear Lot Line; *[Bylaw 8883, March 7, 2022]*
 - (iii) set back a minimum of 0.3 metres (1 foot) from any wall, fence or other Structure over 0.3 metre (1 foot) height with the exception of:
 - a. Parking for One-Unit Residential Use or Two-Unit Residential Use;
 - b. a structural column located within 1.52 metres (5 feet) of the midpoint of the Parking Space length; or
 - c. a structural column located within the rear 0.3 metres (1 foot) adjoining the maneuvering aisle;
 - (iv) free of any column projection; and
 - (v) free of any other projection provided that a maximum 5% of the required Parking Spaces may include an obstruction that:
 - a. projects a maximum 1.2 metres (4 feet) into the front of the Parking Space furthest from the maneuvering aisle;
 - b. maintains a minimum 1.2 metres (4 feet) head clearance; and

- c. includes a leading edge angled at 45 degrees and clearly marked "CAUTION – LOW CLEARANCE" in black letters on a bright yellow background;
 - (d) **Parking Space delineation**
Each Parking Space, with the exception of a Lot in a One-Unit Residential or Two-Unit Residential zone, shall be clearly:
 - (i) delineated by painted solid lines or other acceptable pavement marking device for each Parking Space; and
 - (ii) numbered for identification;
 - (e) **Parking areas**
Each Parking Space, maneuvering aisle and driveway, with the exception of Parking on a Lot in a One-Unit Residential or Two-Unit Residential zone, shall be:
 - (i) surfaced with asphalt, concrete or permeable paving with the exception of Parking for a farmer's market;
 - (ii) designed with adequate curbs and wheel stops of not less than 0.15 metres (6 inches) in Height to ensure that vehicles are kept back from fences, exterior walls and landscaped areas; and
 - (iii) in the case of unconcealed Parking areas, Bounded By a Landscape Screen with a minimum Height of 0.91 metres (3 feet) subject to subsection 906(4)(h);
 - (f) **Parking area lighting**
Parking areas shall be illuminated only with shielded lighting so that:
 - (i) direct rays of light do not fall on an adjacent Lot; and
 - (ii) glare does not impact motorists on adjacent Streets or Lanes.
- (4) **Access Points, Driveway Slope and Vision Clearance**
- (a) A driveway in this Bylaw includes all required access to Parking or Loading Spaces;
 - (b) **Vehicular Access Standards and Specifications**
Vehicular access off a Street shall be designed to conform with the standards and specifications of the Subdivision and Development Control Bylaw;
 - (c) **Limitation of Access**
Subject to Section 906(4)(g) of this Bylaw:
 - (i) for a Lot abutting on both an opened Street and an opened lane, vehicular access shall be from the lane. No access will be permitted from the Street, except for a service station Use, a Civic Use or a passenger pick up and drop off use;

- (ii) for a Lot abutting on two streets of different classifications, as defined in the Subdivision and Development Control Bylaw, vehicular access shall be located off the Street of the lower classification;
 - (iii) for a Lot abutting on Lonsdale Avenue, no vehicular access is permitted off Lonsdale Avenue, except for a service station use;
- (d) Parking Space access directly from Lane *[Bylaw 8464, May 30, 2016]*

Access to individual Parking Spaces located directly off a Lane, with the exception of laneway Parking Spaces, shall only be permitted in:

- (i) One-Unit and Two-Unit Residential zones;
 - (ii) Ground-Oriented Residential zones provided that the Lot has
 - a. Rear Lot Line length of less than 16 metres (52.5 feet); and
 - b. density no greater than 1.0 times the Lot Area;
 - (iii) Commercial and Industrial zones; and
 - (iv) Shared Vehicle Parking Space in any zone subject to the approval of the City Engineer;
- (e) Lane Dedication
Vehicular access may be obtained from a Lane providing the Lot in question has had deducted from it the required or proportionate dedication to the Lane road allowance, and the Lane has in turn a point of access and egress to an opened road allowance. Direct Parking access to or from a Lane will not be permitted in any zone, unless to a dedicated and opened lane;
- (f) Setbacks from Intersections:
All driveway crossings providing ingress and egress to a Parking or Loading area shall be located at a minimum distance of 7.62 metres (25 feet) from the point of intersection of two streets, or 4.52 metres (15 feet) from the point of intersection of two lanes, or of a Street and a lane, when such road allowances intersect at an interior angle of 135 degrees or less;
- (g) Relaxation of Driveway Standards and Crossing Locations
Notwithstanding any other provision in this Bylaw, alternate driveway widths or locations of crossings may be permitted by the City Engineer where, in his opinion:
- (i) the grade of the Lot exceeds 20%, or the driveway slopes are excessive for safe driving, or
 - (ii) vehicular access from a Lane or Street is unavailable, or
 - (iii) extraordinary traffic conditions so require or allow, or
 - (iv) the vehicular access is to public parking;

- (h) Vision Clearance at Driveway Intersections
Driveways shall provide an unobstructed view of pedestrians and traffic where such driveways intersect a street. Notwithstanding Principal or Accessory Buildings otherwise permitted in this Bylaw, no Structure or landscaping except high-branched trees shall exceed 0.914 metres (3 feet) in Height within the area Bounded By the driveway, the Lot line, and a line joining points along said lines 4.572 metres (15 feet) from their point of intersection;
- (i) Driveway Slope
 - (i) No driveway ramp shall exceed a slope of 10% (1:10) in the first 6.096 metres (20 feet) from the property line, and 12.5 % beyond the first 6.1m;
 - (ii) The maximum allowable slope between a garbage storage area and pick-up point is 1%;
- (j) Steep Driveway
A driveway ramp with a slope exceeding 5% (1:20) shall have a surface of at least 3.048 metres (10 feet) in length with a slope of 5% or less, before it meets the street or lane. Such surface may include the adjoining boulevard if approved by the City Engineer;
- (k) Crossfalls
The maximum allowable crossfall in a Parking area is 5%;
- (l) Convex Mirrors on Ramps
Convex mirrors are required on ramps to a Parking Structure where:
 - (i) the width of the ramp does not permit vehicles to bypass each other; or
 - (ii) a motorist coming in one direction cannot readily view a motorist coming in an opposite direction;
- (m) Clearance at Garage Entrance
 - (i) All driveway ramps and entrances to garages shall have a clear Height of 2.134 metres (7 feet);
 - (ii) If a security gating system is used on a driveway ramp for two-way traffic movement, a clear width equal to the minimum driveway width shall be provided at the gate;
 - (iii) If a key lock or magnetic card security system is used, the activation unit must be placed in the centre of the driveway ramp. When the ramp is less than 5.486 metres (18 feet), as permitted under Section 906(5)(e) the security gate shall be activated by a remote control unit in the vehicle;
 - (iv) When the driveway is accessed from a street, the security gate and activation unit shall be setback a minimum of 5.486 metres (18 feet) from the property line such that a vehicle is

off the Street and boulevard when stopped to activate the gate.

(5) Driveway Standards and Regulations

(a) Limits of Driveways and their Widths

Parking areas shall have unobstructed access to and egress from an open Street or Lane via not more than two driveways of not less than 2.743 metres (9 feet.) in width for one-way traffic, nor less than 5.486 metres (18 feet) in width for two-way traffic except that:

on a Lot of 18.288 metres (60 feet) or more in width, one driveway maybe added for each 464.5 square metres (5,000 square feet) of Parking area in excess of 929 square metres (10,000 square feet) unless otherwise specified in this Bylaw;

(b) Driveway Widths at Lot Line

Except where otherwise permitted in this or any other Bylaw, the maximum width of any driveway Crossing as measured at the property line shall be 6.096 metres (20 feet) in residential zones and 7.62 metres (25 feet) in all other zones;

(c) Dead-end Aisle

When angled Parking of 60 degrees or less is employed in combination with a dead-end aisle, it may be designed on the basis of a 3.5 metre (11.5 feet) aisle, providing said dead-end aisle does not exceed 19.81 metres (65 feet) in length and access to the aisle is from a Lane or internal driveway;

(d) Parallel Parking

When parallel Parking is employed in combination with a dead-end aisle, it may be designed on the basis of a 2.743 metres (9 feet) aisle providing said dead-end aisle does not exceed 13.716 metres (45 feet) in length and access to the aisle is from a Lane only;

(e) Reduced Driveway Width

Notwithstanding Section 906(5)(a), a two-way driveway ramp serving a residential Parking Lot with 10 or less stalls may have its width reduced to a minimum of 3.658 metres (12 feet) subject to Section 906(4)(l);

(6) Disability Parking *[Bylaw 7650, November 22, 2004]*

Disability Parking stalls shall:

- (a) be provided on the same Lot as the Building or Use it serves, and located at building or lobby entrances, or as close as possible while being safely accessible; *[Bylaw 7650 November 22, 2004]*

- (b) be calculated as required in Section 908(11); *[Bylaw 8558, June 19, 2017]*
- (c) be not less than 4 metres (13.12 feet) wide, and a portion of the width may include up to 1.5 metres (4.92 feet) of an adjoining walkway, provided such walkway is a minimum of 4 metres (13.12 feet) in width, and shall not be less than 5.486 metres (18 feet) in length; *[Bylaw 7650 November 22, 2004]*
- (d) be designated with a pole mounted sign in conformance with the disabled Parking sign as set out in Schedule 2 of Division (23) of the regulations to the Motor Vehicle Act R.S.B.C. 1979, Chapter 288;
- (e) when Disability Parking *[Bylaw 7650 November 22, 2004]* Spaces are provided for residential use, at least one of the stalls shall be provided for use by visitors. *[Bylaw 7091 February 1, 1999]*
- (f) disability parking spaces shall be held in common ownership and shall not be assigned to any strata lot unless agreed to by resolution of 75% of the strata corporation owners who do not include the original developer of the building. *[Bylaw 7650 November 22, 2004]*
- (g) notwithstanding subsection 906(6)(b), no Disability Parking Spaces are required for Townhouse Residential Use that has a total number of required Parking Spaces of less than 10 spaces. *[Bylaw 8464, May 30, 2016]*

908 MINIMUM PROVISION OF PARKING SPACES

(1) Fractional Number

The required Parking specified in this Bylaw is based on the minimum standard. *[Bylaw 8558, June 19, 2017]* When the calculation of Parking requirements results in a fraction of 0.5 or more of a space, one Parking Space shall be provided to meet this fractional requirement.

(2) Additional Parking Requirements

(a) The required Parking Spaces shall be provided in accordance with Section 908(10), except that for a residential Building with three or more units developed at a density of 0.5 Floor Space Ratio or more, and for a Building in a Commercial, Industrial, or Public Use and Assembly Zone, one additional Parking Space is required for every 5.486 metres (18 feet), of potential public Parking on the curb or shoulder of the Street lost to provide a driveway Crossing accessing the Lot;

(b) Subsection 908(2)(a) does not apply where vehicular access from the Lane is not available due to physical difficulties, unavailability of flankage access or extraordinary circumstances.

(3) Minimum Parking Provision

The minimum Parking required shall be the sum of the requirements for each Building class where a Building or buildings on a Lot fall within more than one Building class under subsection 908(10).

(4) Duration of Parking Provision

Parking shall be provided on a 24 hour per day basis for every day or portion thereof where a Use is in operation, whether the Use is in operation in whole or in part.

(5) Exclusive Parking Use

Parking Spaces shall not be credited as required Loading space, or space for refuse disposal containers.

(6) Recycling Container

A Parking Space shall not be discredited where it has been Used For the enclosure and storage of recycling containers as part of a Municipal Program for those buildings which commenced construction prior to December 31, 1990.

(7) Visitor Parking

Where provision of 10 or more Parking Spaces is required on a lot, a portion of the required Parking Spaces in accordance with Figure 9-3 shall be dedicated for visitor Parking and shall: *[Bylaw 8558, June 19, 2017]*

- (a) be calculated at a ratio of 0.1 spaces per dwelling unit; *[Bylaw 8558, June 19, 2017]*
- (b) be provided in a common Parking area, clearly accessible and available to visitors at all times, and if located behind a security gate must be accessible by intercom *[Bylaw 7537 November 24, 2003];*
- (c) all visitor stalls to be individually labelled "Visitor Parking Only";
- (d) visitor stalls shall be held in common ownership and shall not be assigned to any strata lot. *[Bylaw 6935 September 22, 1997]*
- (e) visitor stalls provided in the form of laneway stalls may be permitted subject to the approval of the City Engineer; *[Bylaw 8464, May 30, 2016]*

(8) Calculation of Parking Requirements

Parking shall be provided in accordance with Part 9 of this Bylaw and the minimum number of Parking spaces provided shall be calculated on the basis of Figure 9-3:

(9) Deleted *[Bylaw 8558, June 19, 2017]*

(10) Deleted *[Bylaw 8558, June 19, 2017]*

(11) Required Disability Parking

A portion of the required Parking Spaces in accordance with Figure 9-3 shall be dedicated for Disability Parking and shall:

- (a) Within Townhouse Residential Use, Apartment Residential Use, Rental Apartment Residential Use and Accessory Apartment Residential Use, be calculated at a ratio of 0.038 Disability Parking Spaces for each Dwelling Unit;
- (b) For non-residential uses, be calculated at a ratio of one Disability Parking Space for each 25 required Parking Spaces up to 50 plus 0.02 Disability Parking Spaces for each required Parking Space in excess of 50.

909 PROVISION OF ELECTRIC VEHICLE CHARGING INFRASTRUCTURE

(1) Fractional Number

When the calculation of Parking Spaces requiring Electric Vehicle charging infrastructure results in a fraction of 0.5 or more of a space, one Parking Space shall be equipped with Electric Vehicle charging infrastructure to meet this fractional requirement.

(2) Residential Uses

All Parking Spaces provided for Residential Uses shall include an Energized Outlet capable of providing Level 2 Charging or a higher charging level for an Electric Vehicle, except parking spaces for Accessory Secondary Suite Use.

(3) Non-Residential Uses

For Parking Spaces provided for non-residential uses:

- (a) A minimum 35% of Parking Spaces shall include an Energized Outlet capable of providing Level 2 Charging or a higher charging level for an Electric Vehicle; and
 - (b) A minimum of 10% of Parking Spaces or one Parking Space, whichever is greater, shall include an Energized Outlet capable of supporting Opportunity Charging.
- (4) Disability Parking
 - (a) All Disability Parking Spaces provided for Residential Uses shall include an Energized Outlet capable of providing Level 2 Charging or a higher charging level for an Electric Vehicle.
 - (b) A minimum of 45% of Disability Parking Spaces provided for non-residential or a minimum of one Disability Parking Space, whichever is greater, shall include an Energized Outlet capable of supporting Opportunity Charging.
- (5) Shared Vehicles

All Parking Spaces for Shared Vehicles shall include an Energized Outlet capable of supporting Opportunity Charging.
- (6) Visitor Parking

A minimum of 10% of visitor Parking Spaces provided or a minimum of one Parking Space, whichever is greater, shall include an Energized Outlet capable of supporting Opportunity Charging.
- (7) Labeling of Energized Outlets

Energized Outlets provided pursuant to Sections 909(2), (3), (4), (5) and (6) of this Bylaw shall be labeled for the use of Electric Vehicle charging.
- (8) Electric Vehicle Energy Management Systems

Where an Electric Vehicle Energy Management System is implemented, the Director of Planning may specify a minimum performance standard to ensure a sufficient rate of Electric Vehicle charging.

[Bylaw 8818, April 12, 2021]

PART 10: LOADING REGULATIONS

1001 Required Loading Space

- (1) Loading Spaces are required for a Building for an Industrial, Commercial or Civic Use involving the movement of goods and materials by vehicles.
- (2) The minimum number of Loading Space required shall be one Loading Space per Building, or one Loading Space per 1393.5 square metres (15,000 square feet) of the Gross Floor Area, whichever is the greater.

1002 General Loading Regulations

- (1) Design Standards

A Loading Space shall:

- (a) be located entirely on the same Site as the Building or Use to be served;
 - (b) not be less than 2.743 metres (9 feet) in width, 9.144 metres (30 feet) long, and 4.191 metres (13.75 feet) in height, except that where more than one Loading Space is required or provided only one such Loading Space shall require a Height of 4.191 metres (13.75 feet), the remaining space shall have a Height of not less than 2.13 metres (7 feet);
 - (c) not be located in a maneuvering aisle or driveway;
 - (d) be accessible from a maneuvering aisle, Street or Lane via driveways permitting a sufficient turning radius for Loading trucks in accordance with the 1991 edition of the Turning Vehicle Templates published by the Transportation Association of Canada;
 - (e) be surfaced with asphalt or concrete, curbed, graded and drained to properly dispose of surface water and be clearly delineated as a Loading space.
- (2) Lighting

All lighting used to illuminate any Loading area shall be so shielded that no direct rays of light fall on any adjacent premises, or cause a glare problem for motorists on adjacent streets or lanes.

(3) Driveway Slope

No driveway ramp shall exceed a slope of 10% (1:10) in the first 6.096 metres (20 feet) from the property line, and 12.5% beyond the first 6.096 metres (20 feet).

(4) Slopes and Crossfalls

The maximum allowable slope or crossfall in a Loading area is 5%.

1003 SPECIFIC LOADING REGULATIONS

(1) W-1 Zone

Loading requirements in W-1 Zone shall be as follows:

- a) one Loading Space per 929 square metres (10,000 square feet) of Gross Floor Area or part thereof;
- b) each Loading Space shall be not less than 9.144 metres (30 feet) in length, 3.048 metres (10 feet) in width and 4.267 metres (14 feet) in Height;
- c) each Loading Space shall be separate from any required Parking spaces and shall not interfere with or block any access to the Lot or to Parking area;
- d) no vehicle either Loading or unloading goods or materials to a Lot shall have any portion of the vehicle extending into any public road or right-of-way while Loading or unloading.

(2) M-5 Zone

A Loading Space in the M-5 zone shall not be located within a distance measured parallel to and 15.24 metres (50 feet) from the centre line of the First Street road allowance.

PART 10A: BICYCLE PARKING AND ACCESS REGULATIONS

10A01 Required Bicycle Parking

Subject to Sections 305 and 307, the minimum number of Bicycle Parking Spaces for any Building or Use shall be provided in accordance with Section 10A06 of this bylaw. *[Bylaw 8578, November 6, 2017]*

10A02 General Bicycle Parking Standards

(1) Bicycle Parking Space

A Bicycle Parking Space shall:

- (a) have dimensions no less than 0.3m width for Short-Term Bicycle Parking Use and 0.6m width for Secure Bicycle Parking Use, measured as the clear distance between the rack supports or between the rack support and any other obstruction, and 1.8m length;
- (b) not be located in a maneuvering aisle, pedestrian pathway or City street unless approved by the City;
- (c) have overhead clearance of no less than 2.5m;
- (d) be surfaced with a hard, durable material such as asphalt, concrete or pavers.

(2) Vertical Bicycle Parking Space

A Vertical Bicycle Parking Space shall:

- (a) have dimensions no less than 0.6m width, measured as the clear distance between the rack supports or between the rack support and any other obstruction, and 1.0m length not be counted towards required Short-Term Bicycle Parking Spaces;
- (b) not be counted towards more than 35% of required Secure Bicycle Parking Spaces.

(3) Bicycle Parking Access

All Bicycle Parking shall comply with the dimensions and regulations shown in Figure 10A-01, and have an access aisle width of no less than 0.9m.

Figure 10A-01 – Bicycle Parking and Maneuvering Dimensions - Minimum Bicycle Parking Space Width and Aisle Width in Metres

Bicycle Parking Space Width	Access Aisle Width
0.60	1.2
0.65	1.1
0.70	1.0
0.75	0.9

10A03 Short-Term Bicycle Parking

(1) Location

All Short-Term Bicycle Parking Spaces shall be provided in a common area, clearly visible and accessible to visitors and be:

- (a) within 15m of the main entrances of Principal Buildings;
- (b) located so that at least 50% of spaces are sheltered from the elements where more than six Short-Term Bicycle Parking Spaces are required;
- (c) located off-street unless on-street placement is approved by the City.

10A04 Method of Parking Provision

All Short-Term Bicycle Parking Spaces shall be provided by means of a bicycle rack.

10A05 Secure Bicycle Parking

(1) Location

All Secure Bicycle Parking Spaces shall be provided in a common area and be:

- (a) fully enclosed;
- (b) at the level of the grade, or at the first level of vehicle parking above or beneath grade;
- (c) accessed directly on grade or by elevator from a primary entrance.

(2) Method of Parking Provision

All Secure Bicycle Parking Spaces shall be provided by means of a Bicycle Rack in a Bicycle Room or Bicycle Compound, individual Bicycle Lockers, or combination thereof;

(3) Bicycle Compound and Room Size

All Bicycle Compounds and Rooms shall:

- (a) accommodate a maximum of 40 Bicycle Parking Spaces;
- (b) be separate from other Uses including general storage areas;
- (c) include one electrical outlet for every 4 Bicycle Parking Spaces in a Bicycle Compound. *[Bylaw 8418 June 15, 2015]*

(4) Use by Wheeled Mobility Aids

Bicycle Compounds and Rooms may be used to park wheeled mobility aids with the limitations that;

- (a) such use shall not impose on access aisle;
- (b) bicycle racks shall be provided unless it is demonstrated with reasonable accuracy the proportion of people requiring wheeled mobility aids expected to use the site.

10A06 Minimum Provision of Bicycle Parking Spaces

(1) Fractional Number

The Required Bicycle Parking Spaces specified in this Bylaw is based on the minimum bicycle standard and the highest demand at any time of the day or year. When the calculation of parking requirements results in a fraction of 0.5 or more of a space, one Parking Space shall be provided to meet this fractional requirement.

(2) Minimum Parking Provision

The minimum parking required shall be the sum of the requirements for each Building class where a Building or buildings on a Lot fall within more than one Building class under Section 10A05(4).

(3) Duration of Parking Provision

Parking shall be provided on a 24 hour per day basis for every day or portion thereof where a Use is in operation, whether the Use is in operation in whole or in part.

(4) Calculation of Parking Requirements

The minimum Parking required shall be calculated on the basis of Figure 10A-02:

**Figure 10A-02 – Parking Provision by Class of Building - Minimum Required
Bicycle Parking Spaces**

Class of Building	Required Bicycle Parking Spaces	
	Short-Term	Secure

Civic Uses	6 spaces per 1,000 m2 Gross Floor Area	1 space per 250 m ² Gross Floor Area
Assembly Uses	6 spaces per 500 m2 Gross Floor Area	1 space per 250 m ² Gross Floor Area

10A07 Accessory End Destination Facility

All new Buildings and Uses that require Secure Bicycle Parking shall provide an Accessory End Destination Facility:

- (1) Location

Accessory End Destination Facilities shall be provided in a common area and be:

- (a) no more than 50m from the Secure Bicycle Parking;
- (b) at the level of the grade, or at the first level above or beneath grade;

(c) accessed directly by elevator from a primary entrance or from grade.

(2) Exception for Residential Use

Secure Bicycle Parking Spaces required by classes of buildings listed under “A. Residential Uses” in Figure 10A-02 shall not be counted towards Accessory End Destination Facility Requirements in Section 10A08.

(3) Exception Due to Employee Fitness Centre

Where facilities are provided on-site as part of an employee fitness centre meet or exceed the requirements of Section 10A08, and are accessible to cyclists before and after work shifts, no additional Accessory End Destination Facilities are required.

(4) Equitable Access to Facilities

Accessory End Destination Facilities shall:

(a) be equally divided by gender:

(i) unless it is demonstrated with reasonable accuracy the proportion of each gender expected to use the site;

(ii) where there are no more than 30 required Secure Bicycle Parking Spaces, Accessory End Destination Facilities may be unassigned to gender, provided that each washroom, consisting of a wash basin, grooming station and shower, is lockable by the user and has appropriate signage indicating that it is a shared facility;

(b) include a minimum of one wash basin, grooming station, shower and locker that is accessible to a user in a wheelchair of each gender.

10A08 Accessory End Destination Facility Standards

All Accessory End Destination Facilities shall provide the following:

(1) Showers and Wash Basins

Showers and wash basins shall be provided in accordance with Section 10A08.

(2) Water Closets

Water closets accessible to cyclists before and after work shifts must be:

(a) provided in accordance with Section 10A08;

- (b) located within 50 m of the Accessory End Destination Facility where not provided as part of the Accessory End Destination Facility.
- (3) Clothing Lockers

Personal clothing lockers shall:

- (a) number two times the number of required Secure Bicycle Parking Spaces;
- (b) measure a minimum of 90 cm in height, 30 cm in width and 45 cm in depth.

- (4) Grooming Stations

Grooming stations shall:

- (a) equal the number of required showers;
- (b) be located separate from the wash basin or shower unless shared facilities are provided subject to Section 10A06(4);
- (c) consist of a mirror, electrical outlet and a counter top with a minimum width of 60 cm and a minimum depth of 25 cm.

10A09 Minimum Requirements of Accessory End Destination Facility

The minimum total facility requirements shall:

- (1) Calculation of Minimum Accessory End Destination Facility

The minimum Accessory End Destination Facility Requirements shall be calculated on the basis of Figure 10A-03, except that:

- (a) any Secure Bicycle Parking spaces counted towards additional parking reductions in Section 908(10)(b) shall be added to the required number of Secure Bicycle Parking spaces for the purposes of minimum Accessory End Destination Facility Requirements.

DIVISION V: COMPREHENSIVE DEVELOPMENT ZONES

PART 11: COMPREHENSIVE DEVELOPMENT ZONES

Division V presents Comprehensive Development Zone Standards as an integral part of the “Zoning Bylaw, 1995, No. 6700”. Comprehensive Development (CD) Zones are identified on the Zoning Map. CD Zones are usually site specific and often create a package of Zoning standards unique to that site. CD Zones are most often created in response to a site specific development application. A Zoning Bylaw Amendment is then considered by Council in accordance with the City's Official Community Plan.

Users of Division V should thoroughly review the applicable Comprehensive Development Zone Standards. Many Comprehensive Development Zones also refer to Divisions I through IV of the “Zoning Bylaw, 1995, No. 6700” for general regulations or variances therefrom. Users are therefore advised to refer to other Divisions of the “Zoning Bylaw, 1995, No. 6700” as necessary. Division V may be purchased or viewed at City Hall.

COMPREHENSIVE DEVELOPMENT ZONES

Regulations for individual Comprehensive Development Zones shall be as follows:

CD-1**COMPREHENSIVE DEVELOPMENT 1 ZONE**

In the CD-1 Zone, permitted uses, regulations for permitted uses, regulations for the size, shape and siting of buildings and structures, and required off-street parking and off-street loading spaces for the sites indicated in Schedule 1 of the Bylaw shall be as follows:

- (1) for Site 2, as for the CS-1 Zone, except that the minimum number of off-street parking spaces provided for a building used as a service station shall be eight spaces per 92.9 square metres (1,000 square feet) of gross floor area exclusive of servicing bays;
- (2) for Site 3, as for the RG-1 Zone, except that
 - (a) Sections 511(1), 511(2), and 511(3) shall not apply;
 - (b) buildings and structures used for a garden apartment residential use shall not exceed a total floor area of 0.6 times the lot area, when the floor area of basements and of portions of buildings used for parking are excluded;
 - (c) buildings and structures used for a garden apartment residential use shall have a minimum of 156.1 square metres (1,680 square feet) of lot area for each dwelling unit, when the lot area used for parking space, streets, and vehicular access is excluded;
 - (d) the minimum number of off-street parking spaces for each building shall be 1.2 spaces per dwelling unit;
 - (e) notwithstanding other provisions of this Bylaw, where a parking space along its length adjoins a wall, a fence or other structure over 0.3 metre (1 foot) in height, no additional width shall be required for each parking space, provided that an opening 1.8 metres (6 feet) wide by 2.13 metres (7 feet) high is located in the wall so as to provide unobstructed access to two passenger doors on the side of a vehicle adjacent to the wall, fence or other structure;
 - (f) Section 511(5) of Bylaw 3778 is hereby waived in one instance only to an extent sufficient to permit a setback of 1.83 metres (6 feet) from the east building face to an adjacent (Site 1A, Schedule 24) property line over a distance of 11.3 metres (37 feet) in the area of the southeast corner of Site 3;

- (e) in the event the bonus available under 3(c) preceding is exercised, a condition of this bonus is the provision of a public access area for pedestrian use, which will facilitate the passage of pedestrians over the British Columbia Rail Right-of-Way so they may exit on to the public park to the south of the Right-of-Way, in a manner satisfactory to the City. This pedestrian access area shall be a minimum width of 3.20 metres (10.5 feet) clear dimension, and may be located within the area designated P. 1 on Schedule 6, page one, which forms a part of this by-law.
- (4) a minimum public access area of not less than 20 per cent of the aggregate of said lot area and the portion of the railway Right-of-Way over which structures or buildings are built, shall be provided. This area may include out-side areas used for pedestrian access or which are landscaped and adjacent to pedestrian access areas. Such areas may be located under cover and may be located on a ground floor area or upper floor or roof areas, providing they are accessible to the public at all times. In compliance with 3(e) preceding, the provision of a public access area for pedestrian use overpassing the British Columbia Rail Right-of-Way will be considered as part of this requirement;
- (5) the principal buildings shall be sited and shaped within the envelopes shown on the attached Schedule 6, pages 1 and 2, which forms a part of this By-law;
- (6) the principal building shall not exceed six storeys and a vertical control dimension of 23 metres, measured from the average building grades of that portion of Esplanade which fronts on the northern boundary of the parcel;

- (7)
 - (a) no vehicular access will be permitted to this site from Esplanade:
 - (b) vehicular access may be obtained from the foot of Chesterfield Avenue, lying south of Esplanade, in accordance with the specifications and requirements for access described in Part 4 of this by-law;
- (8) the minimum number of accessory off-street parking spaces which shall be provided for on-site uses shall be predicated on the following:
 - (a) for all office uses: one parking space per 74 square metres (800 square feet) of total floor area of office uses:
 - (b) for retail uses and for public corridors, lobbies, waiting areas and required accesses thereto: one parking space per 46.5 square metres (500 square feet) of total floor for purposes of establishing parking ratios within the CD-24 Zone, "Office" is defined as: a business, professional or government office use from which the public is normally excluded, except by appointment; all other parking specifications will be predicated on the requirements laid out in Section 1001 of this by-law;
- (9) a minimum of three (3) off-street loading bays shall be provided, one of which shall have a clear height provision of 4.25 metres (14 feet):
- (10) all open areas not covered by buildings, structures, drive-ways or parking spaces shall be suitably landscaped and maintained;
- (11) refuse storage containers shall be readily accessible for pick-up and for users and shall be screened on all sides from exterior view;
- (12) all landscaping plans and exterior finishes shall be submitted for examination and recommendation by the City's Advisory Design Panel.

SECTION A-A

SECTION B-B

CD-25

COMPREHENSIVE DEVELOPMENT 25 ZONE

(Lots 1-5 inclusive, Block 178, D.L. 271, Group 1, Plan 4295; Part of Lots 6-8 inclusive, lying to the north of the Right-of-Way of the Terminal Railway of the National Harbours Board shown outlined green on R.P. 2481, Block 178, D.L. 271, Group 1, Plan 4295; Lot 9 of the bed and foreshore of Burrard Inlet lying in front of D.L. 271, Group 1, Plan 12276; part of the westerly portion of Lot 10 of the bed and foreshore of Burrard Inlet lying in front of D.L. 271, Plan 12276; part of Parcel "A" (R.P. 2483) being the foreshore of Burrard Inlet in front of Lot 9, Group 1, N.W.D., Plan 12276; part of Parcel "A" (R.P. 2257) of that portion of the foreshore of Burrard Inlet lying in front of Lot 9, Group 1, N.W.D., Plan 12276, all as shown shaded and marked as CD-25 on Plan Schedule 7, i.e. 1, attached.)

In the CD-25 Zone, permitted uses, regulations for permitted uses, regulations for the size, shape and siting of buildings and structures and regulations for required off-street parking shall be as follows:

- (1) the permitted uses shall be limited to:
 - (a) banks and financial institutions;
 - (b) business and professional offices;
 - (c) business and trade schools;
 - (d) commercial entertainment uses including: night clubs, cabarets, discotheques and movie theatres but excluding drive-in theatres;
 - (e) hotels;
 - (f) farmers' markets;
 - (g) fraternal lodges, social clubs, service clubs, health clubs;
 - (h) government offices;
 - (i) personal service establishments such as: barber shops, beauty parlours, dry cleaners, appliance repair shops, florists, laundrettes, optical or watch repair shops, tailoring and dressmaking establishments, shoe repair shops, printing shops and other similar establishments;
 - (j) public assembly, civic and institutional uses such as: auditoriums, meeting halls, theatres, art galleries, museums, libraries, community centres, churches, recreational facilities, youth centres and other similar establishments;
 - (k) restaurants, cafes and coffee houses excluding drive-in restaurants;
 - (l) retail stores such as: grocery stores, bakery shops, meat and fish markets, delicatessens, clothing and shoe stores, home wares, drug stores, stationery stores, camera shops and other similar establishments, provided that none of such individual uses shall exceed a floor area of 465 square metres (5,000 square feet);
 - (m) studios, such as: artists, display, music, dance, radio, recording, television and photographic studios;
 - (n) taxi dispatch offices;
 - (o) tourist accommodation and facilities;
 - (p) veterinary clinics;

- (q) accessory one-family residential;
 - (r) accessory non-commercial social and recreational facilities, including tennis courts, squash courts, gymnasiums, games rooms, hobby rooms, swimming pools, day-care centres, libraries, meeting halls, and other similar facilities;
 - (s) accessory off-street parking;
 - (t) accessory off-street loading:
- (2) the principal and accessory buildings shall not exceed a total lot coverage of 78.9 per cent of the north and south portions of the lot area, if development is con-fined to the portion north of the C.N.R. Right-of-Way, as shown on Schedule 7, page 1; alternatively, if structures or buildings are built over the C.N.R. Right-of-Way as an extension of the principal building or structure on the northern portion of the site, then the lot coverage may increase in direct proportion to the square metric area of the Right-of-Way over which structures or buildings are built, up to a maxi-mum of 85.6 per cent of the total site area, including the C.N.R. Right-of-Way, as shown of Schedule 7, page 3;
- (3) (a) where the northern portion only of the site is utilized for building, then the gross floor area shall not exceed 2.6 times 2,084 square metres (22,433 square feet) which equals 5,428 square metres (58.325 square feet):
- (b) if structures or buildings are built over all or a portion of the C.N.R. Right-of-Way, as shown on Schedule 7, page 3, as an extension of the principal building on the northern portion, then the square metric area of the portion of the Right-of-Way over which such structures or buildings are built shall be added to the lot area of 2,173 square metres (23,390 square feet), for purposes of applying the floor space ratio factor of 2.6, the product of which shall deter-mine the maximum gross floor area permitted;
- (c) where accessory non-commercial social and recreational facilities are provided, then the floor area for such facilities shall not be included in the calculations of floor space ratio, providing such area does not exceed 10 per cent of the gross floor area:
- (4) (a) a minimum public access area of not less than 20 per cent of the total lot area shall be provided. This area may include outside areas used for pedestrian access or which are landscaped and adjacent to pedestrian access areas. Such areas may be located under cover and may be located on a ground floor area or upper floor or roof areas, providing they are accessible to the public at all times;
- (b) where the building on this site contacts the public access area (plaza) of the adjacent site, lying immediately to the east, and such contact is in a manner which provides a pedestrian access approved by the City, a credit of 10 square metres (108 square feet) for every 3 metres (10 feet) of access width will be granted in computing public access area required under 4(a) preceding:
- (5) the principal building shall be sited and shaped within the envelope shown on the attached Schedule 7, pages 1 to 4, which forms a part of this By-law;
- (6) the principal building shall not exceed six storeys and a vertical control dimension of 23 metres, measured from the average building grades of that portion of Esplanade which fronts on the northern boundary of the parcel.
- (7) (a) no vehicular access will be permitted to this site from Esplanade;

- (b) vehicular access may be obtained from the foot of Chesterfield Avenue, lying south of Esplanade, in accordance with the specifications for access described in Part 9 of this by-law;
- (8) the number of accessory off-street parking spaces which shall be provided for on-site uses shall be predicated on the following:
- (a) for all office uses: one parking space per 74 square metres (800 square feet) of total floor area of office uses;
 - (b) for retail uses and for public corridors, lobbies, waiting areas and required accesses thereto: one parking space per 46.5 square metres (500 square feet) of total floor area; and in any case, a maximum of 86 off-street parking spaces shall be provided within the CD-25 Zone.

For purposes of establishing parking ratios under Subsection (8)(a), "office" is defined as: a business, professional or government office use from which the public is normally excluded, except by appointment. All other parking specifications will be predicated on the requirements laid out in Section 1001 of this By-law.

- (9) a minimum of two (2) off-street loading bays shall be provided, one of which shall have a clear height provision of 4.25 metres (14 feet);
- (10) all open areas not covered by buildings, structures, drive-ways or parking spaces shall be suitably landscaped and maintained;
- (11) refuse storage containers shall be readily accessible for pick-up and for users and shall be screened on all sides from exterior view;
- (12) all landscaping plans and exterior finishes shall be submitted for examination.

[Bylaw 8579, December 4, 2017]

CD-646

In the table above, all Gross Floor Area requirements are indicated in Metres Squared.

- (c) The Use Gross Floor Areas associated with each Site as listed in (B4)(b) of this Bylaw are flexible insomuch as they can be reallocated to other Sites subject to this Bylaw to a maximum not exceeding five percent of the total Gross Floor Area allowed for the donor lot subject to the approval of the Director of Community Development at the time of Development Permit issuance.
- (d) Of the permitted residential floor area on Site B or Site C, a minimum of 10,000 square metres shall be for Supportive Rental Housing Use. *[Bylaw 8579, December 4, 2017]*

(B5) Open Site Space

- (a) Minimum Open Site Space shall be as follows on each of the Sites described in Schedule '103':

Site A	2,200 sq. m.
Site B	1,100 sq. m.
Site C	2,300 sq. m.
Site D	4,700 sq. m.

(B6) Parking Provision

- (a) The Accessory Apartment Use and the Retail Service Group 1 Use Parking Spaces can be considered communally where the Parking Spaces will be in a publicly accessible location and will serve both uses. In such circumstances, each Parking Space will count toward the Parking Space requirements for both uses.
- (b) Minimum vehicle parking stalls by class of building shall be calculated as follows:

Retail Service Group 1 Use	1 space per 38.6 sq. m. (415 sq. ft.)
Liquor Licensee Retail Store	1 space per 38.6 sq. m. (415 sq. ft.)
Liquor Primary License Establishment (Neighbourhood Pub)	1 space per 38.6 sq. m. (415 sq. ft.)
Supportive Rental Housing Use	0.6 spaces per dwelling unit
Seniors Apartment Residential Use	1 space per dwelling unit

- (c) The minimum number of accessory off-street Parking Spaces for Residential Uses and all other Uses not mentioned in (B6)(b) shall be calculated as indicated in Part 9.

(B7) Unit mix within the Accessory Apartment Use and High-Density Apartment Residential Use for each Site will conform to the following:

- (a) A minimum of 5% of units will be under 51 sq. m. (549 sq. ft.);
- (b) A minimum of 15% of units will be 1 bedroom;
- (c) A minimum of 20% of units will be 2 bedrooms;
- (d) A minimum of 5% of units will be 3 bedrooms;

CD-646

- (e) A minimum of 5% of units will be built to the Level 3 standard in the Adaptable Design Guidelines.
- (B8) Refuse storage containers shall be readily accessible for pick-up and for users and shall be screened on all sides and shall not be located in required manoeuvring aisles, driveways, Loading Spaces or Parking Spaces.
- (B9) All exterior finishes, design and landscaping shall be reviewed by the Advisory Design Panel in compliance with the Harbourside Waterfront Development Permit Area Guidelines.
- (B10) All public realm design and landscaping shall be reviewed by the North Shore Advisory Committee on Disability Issues, with recommendations from the Committee addressed to the satisfaction of the City Engineer.
- (B11) Section 510 (2) Unit Separation, shall be waived.
- (B12) Non-Residential Secure Bicycle Parking
 - (a) Secure Bicycle Parking that is required for any Use, other than a Residential Use, may be provided on a parcel other than the parcel containing the Use for which it is required, provided that the parcel is within the same Site as the Use for which it is required, and provided that the Secure Bicycle Parking is secured by legal agreement(s) in favour of the City that allows, among other things, access by the owners and employees of businesses located within the commercial units of the Site to the Secure Bicycle Parking area. *[Bylaw 8805, December 14, 2020]*
- (B13) Accessory End Destination Facilities
 - (a) Accessory End Destination Facilities may be provided as a shared amenity for each Site, rather than for individual parcels. Where Accessory End Destination Facilities are provided for multiple parcels, the number of facilities, outlined in Section 10A09, shall be calculated based on the combined total required Secure Bicycle Parking for non-residential Uses on those parcels. The Accessory End Destination Facilities shall be secured by legal agreement(s) in favour of the City that allows, among other things, access by the owners and employees of businesses located within the commercial units of the Site to the Accessory End Destination Facilities. *[Bylaw 8805, December 14, 2020]*

(4) Required Accessory Lock-Off Unit Use

Any Townhouse Residential Use with ten or more Principal Dwelling Units shall provide Accessory Lock-Off Units as follows:

- (a) the minimum required provision is one Accessory Lock-Off Unit for every five Principal Dwelling Units that have a Gross Floor Area greater than 140 square metres (1,507 square feet);
- (b) no more than one Accessory Lock-Off Unit shall be accessory to any single Principal Dwelling Unit;
- (c) each Accessory Lock-Off Unit shall be:
 - (i) constructed in accordance with subsection 507(15) of this Bylaw; and
 - (ii) accessory to any Principal Dwelling Unit on the Lot.

(5) Density

The sum of subsections (5)(a) and (5)(b), combined and in total, shall at no time exceed 1.25 times the Lot Area:

(a) Gross Floor Area (One-Unit and Two-Unit Residential)

- (i) Gross Floor Area (One-Unit and Two-Unit Residential) shall not exceed the lesser of:
 - a. 0.50 times the Lot Area; or
 - b. 0.35 times the Lot Area plus 92.9 square metres (1,000 square feet).
- (ii) Notwithstanding subsection (5)(a)(i) above:
 - a. Cellars may be excluded from Gross Floor Area (One-Unit and Two-Unit Residential) through provision of EnerGuide 80 energy standard subject to subsection 419(1); and
 - b. of the total allowed in subsection (5)(a)(i), the maximum Gross Floor Area for Accessory Coach House Use shall not exceed the lesser of:
 - i. 0.17 times the Lot Area; or
 - ii. 92.9 square metres (1,000 square feet).

(b) Gross Floor Area

- (i) Gross Floor Area shall not exceed the greater of:
 - a. 0.50 times the Lot Area; or
 - b. Gross Floor Area permitted prior to the adoption of Amendment Bylaw, 2016, No. 8464.
- (ii) Notwithstanding subsection (5)(b)(i), Gross Floor Area may be increased to a maximum of 1.25 times the Lot Area through the provision of:
 - a. One of the enhanced energy standard options and all applicable density bonus provisions as indicated by the shaded area of the selected option in Figure CD-669 - 2; or

CD-669

- b. Passive House Low Energy Building (maximum 30 kWh/m²) plus installed on-site renewable energy, on all lands in the CD-669 Zone listed in Schedule 122, and all applicable density bonus provisions of Enhanced Energy Standard Option (1) in Figure CD-669 – 2.
- (iii) The total permitted density for the CD-669 Zone may be allocated between Lots in the CD-669 Zone per Schedule 121, subject to:
- a. no Lot shall exceed a maximum density of 1.55 FSR;
 - b. at no time shall the total Gross Floor Area for the CD-669 Zone exceed the maximum area for the Zone in accordance with subsection (5)(b)(ii);
 - c. any allocation shall be registered on title pursuant to Section 215 of the Land Title Act for all involved Lots in a form acceptable to the City; and
 - d. approval of the Director of Community Development at the time of Development Permit issuance.
- (iv) Notwithstanding subsection (5)(b)(iii), the City need not approve an allocation of density if, in the opinion of the Director of Community Development, the allocation would be detrimental to the health, safety, convenience or welfare of the adjoining owners, occupants or the public generally;

(6) Lot Coverage

Principal Buildings together with Accessory Buildings shall not exceed a Lot Coverage of 60 percent.

(7) Building Height

- (a) Rowhouse Residential Use shall not exceed a Building Envelope of 12 metres (39.4 feet) as measured from average Building Grades on the Street;
- (b) Apartment Residential Use, Rental Apartment Residential Use, Residential Care Facility Use, Assembly Use and Civic Use shall not exceed a Building Envelope of 15 metres (49.2 feet) as measured from average Building Grades:
 - (i) from the Street for the Lot Area between the Front Lot Line and a Line parallel to and offset 28 metres (91.9 feet) from the Front Lot Line; and
 - (ii) from the Lane for the remainder of the Lot.
- (c) All other permitted Uses shall not exceed a Building Envelope of 15 metres (49.2 feet) as measured from average Building Grades:
 - (i) from the Street for the Lot Area between the Front Lot Line and the Mid Lot Line; and
 - (ii) from the Lane for the remainder of the Lot.

CD-669

(8) Building Siting

(a) Rowhouse Residential Use shall not be sited less than:

- (i) 1.6 metres (5.2 feet) from an Interior Side Lot Line shared by an adjacent Lot with a Lot Area greater than 334.4 square meters (3,600 square feet);
- (ii) 0 metres (0 feet) from an Interior Side Lot Line shared by an adjacent Lot with a Lot Area equal or less than 334.4 square meters (3,600 square feet); and
- (iii) 7.6 metres (24.9 feet) or 0.50 times the Lot depth, whichever is greater, from a Rear Lot Line.

(b) All other permitted Uses shall not be sited less than:

- (i) 3 metres (9.8 feet) from a Front Lot Line;
- (ii) 2.4 metres (7.9 feet) from an Interior Side Lot Line or Exterior Side Lot Line; and
- (iii) 1.6 metres (5.2 feet) from a Rear Lot Line.
