

## CAPILANO WATER MAIN NO. 7

# WATER MAIN RELOCATION WORK AT KEITH ROAD AND BROOKSBANK AVENUE

To help ensure the continued delivery of clean, safe drinking water for the region's growing population.

NOVEMBER 2019

## Project Overview

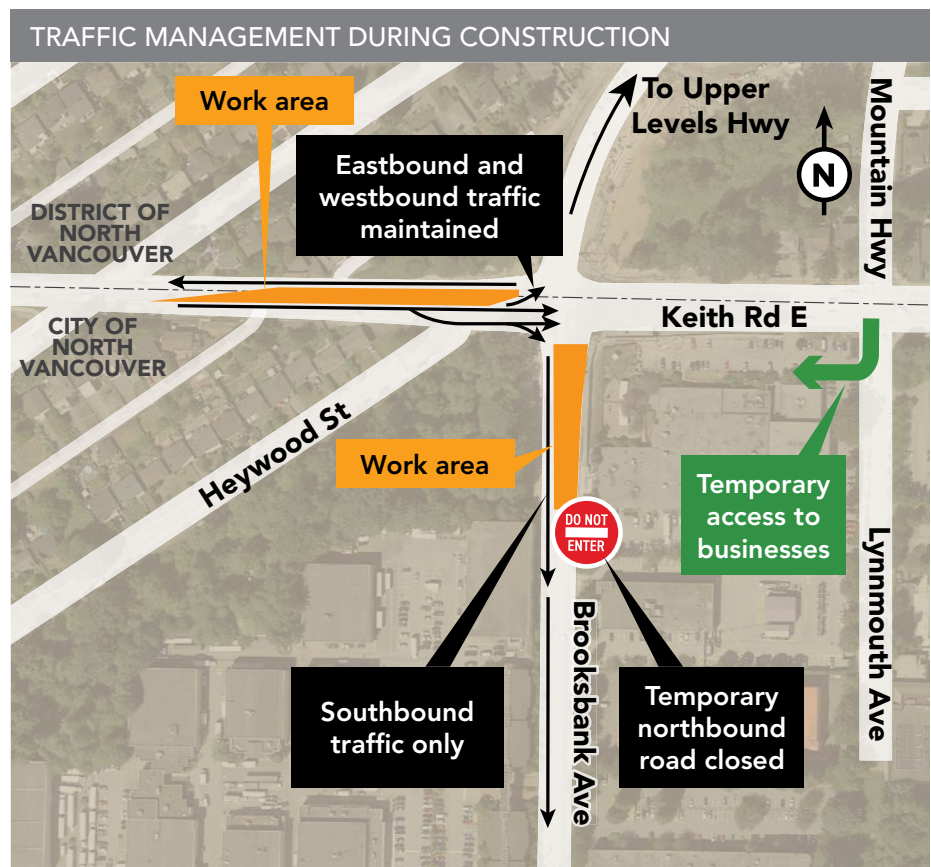

Metro Vancouver has relocated a section of the Capilano Water Main No. 7 in the District of North Vancouver (DNV) and City of North Vancouver (CNV) at the intersection of Keith Road and Brooksbank Avenue. This relocation was required due to changes in the intersection by the Ministry of Transportation and Infrastructure's (MOTI) Mountain Highway Interchange Project. The relocation took place in summer 2019 and was done in coordination with MOTI, DNV and CNV.

The Capilano Water Main No. 7 Relocation Project is in the final stages and will require tie-in work to connect the relocated main to the existing regional water transmission system. This work is scheduled to begin in March 2020 for approximately one month at the intersection of Keith Road and Brooksbank Avenue.

The MOTI has recently completed the Mountain Highway Interchange Project work at the intersection of Keith Road and Brooksbank Avenue and restored the road lines along Keith Road for safety reasons. After completion of the Capilano Water Main No. 7 Relocation Project, the intersection will be restored again.

## Keeping Traffic Moving Safely and Efficiently

-  Traffic will be maintained in all directions along Keith Road for the duration of construction. Brooksbank Avenue will be closed to northbound traffic with one southbound lane remaining open (see map). Please follow the directional signage in place.
-  Pedestrians and cyclists will be detoured around the project construction zone.
-  Emergency services access will be maintained at all times.
-  Residents and businesses will have access to their properties for the duration of construction.
-  There may be temporary changes to bus service in the area for the duration of construction. Please visit Translink at [www.translink.ca/serviceschanges](http://www.translink.ca/serviceschanges) or call 604-953-3353 for updates on service.

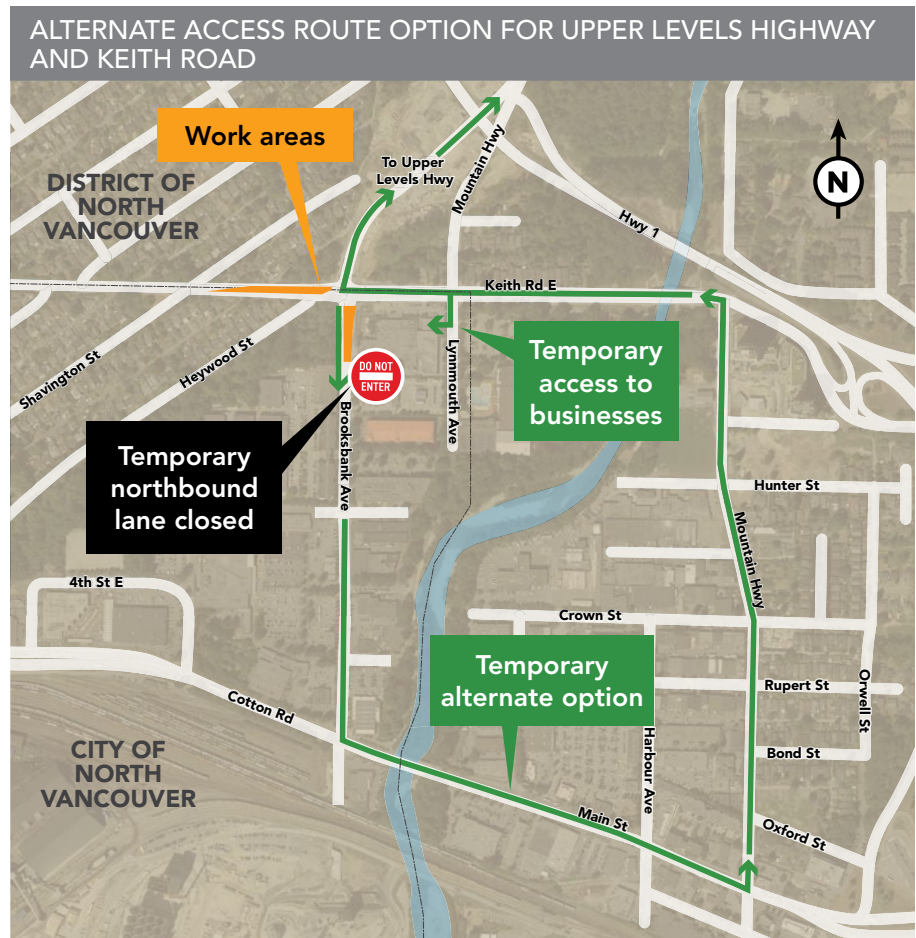

## Temporary Alternate Access Route for Upper Levels Highway and Keith Road

There will be a temporary alternate access route in place for access to the Upper Levels Highway and Keith Road for the duration of the northbound closure on Brooksbank Avenue.

### Typical Hours of Work

Monday–Sunday  
7 AM–8 PM

There will be 24/7 work taking place for approximately two weeks of the project in order to expedite project completion. All work will comply with noise bylaws or granted bylaw variances.

## Working with the Community

Metro Vancouver is committed to minimizing construction impacts, working with the community and listening to concerns to ensure they are addressed as best as possible during construction.

The project team will:

- Inform nearby businesses and residents of the construction schedule and traffic impacts through newspaper advertisements, newsletters and radio advisories
- Provide a dedicated Community Liaison to address any public questions or concerns
- Work closely with residents and businesses to identify and mitigate construction impacts

### Metro Vancouver Project Updates

Metro Vancouver will provide advance notification of upcoming construction activities. For additional information please visit [www.metrovancouver.org](http://www.metrovancouver.org).

### MOTI Project Updates

For updates on the MOTI Mountain Highway Interchange Project please visit [www.gov.bc.ca](http://www.gov.bc.ca).
